Hey Pals Happy TGIF on a Holiday Weekend !!

... **Actually** I'll be in here tomorrow til Noon and Monday til 2pm.... But ...the **4th** is really one of our Fave Holidays.... the whole Independence thing..... Liberties..... Freedoms ... 2nd Amendment... All the Rest..... Praying our Almighty God continues to Bless this America that *He actually started* with our Christian Fore-Fathers.

******Tart Cherry** Guys just got some huge GoodNews with MustangMaxx now being a "**3**-Da-PHI" for Tarts while until today it was **14** Days!!!

Huge!! ...and only \$3.26-Ac-Full-Rate !!

During these fierce **BrownRot-FruitRot** Weather conditions, I'd be keeping Captan8oWDG[o Da.PHI] in the Tank with 12oz. Indar2F [oDa.PHI]\$26 ...

.....or LunaSensation-6 oz-1 Da.PHI=\$35

******Last Eve** "Pre-Harvest-**Blues**" Grower Meeting--Fennville--pretty decent Attendance....They were again talking quite favorably about **Grandevo** for SWDs..... Marrone gave me the report of the MSU-John Wise work done there at Trevor Nichols Research Complex in 2016 when Grandevo looked really great compared to some very Heavy-Artillery from our Anti-SWD-Arsenal.

So....BluesBoys right now should be energized about ...

**Their LongTerm-Harvest-Time-SWD-War-Strategy

Their PreHarvest **VitaZyme Appln

Their Big-Dose-Calcium** Apps for much-much FirmerFruit to hinder the Female Adult SWD from layin her eggs.... Using **MainStay Ca.S.I.**

Organic Blues-Guys---VitaZyme** wOMRI Label--**CS2005**--

Grandevo--ORO.Boost--Regalia--Agrinos-5-0-0--Lots More

******You Guys** that have really watched "ActiGard" and also the **SAver**?? SAver with the same SalicylicAcid "Inert"...???.
.....Please remember that ActiGard has a **60 Da.PHI**
.....while the SAver has **Zero -0-** Da.PHI.....LowRate

ActiGard\$35 - \$40...Ac ?? SAver = **\$3-\$4-\$5** - Ac.

******AppleGuys** - Some ridiculous PHIs to watch.....Kasumin=90Da....All EBDCs=77 Da....Prowl & Sinbar=60 Da....Kudos & Apogee=45 Da....Actara & EndigoZC=35 Da.... Sovran=30 Da....Warrior=21 Da-which includes one of my Faves-LambdaCy....LunaTranquility=72 Da....Strep=50 Da.... These are based on the E.P.A....While some certain Processors-- Fruit Buyers may have some even crazier PHI-Restrictions....?? But they need to tell you that themselves.

******I have watched** many many Smart Money Tree Fruit-- Small Fruit--All Fruit Guys use a **12oz - 16oz--Ac.Appln of CS2005** with their very last **Pre-Harvest Spray** why...???. Because it serves as a **Rot-Mold-Prevent**extending into the Packing-Shipping Time-Frames. It really does work. The Vegie Guys use CS2005 in a Drench at the Fresh-Pack-Plant. Under a Special Label it's legal to use on Fish & Poultry ...All Meats and all Produce.

Lots of Tart Cherry Guys do this so in case the Processor has to slow them way down on their deliveries, their Cherries don't go down hill hangin there on the trees during the delay.

When Linda gets home from the Grocery Store with some fresh Grapes or Tangeloes or BlackBerries -- whatever.... She always drenches-washes the Produce in CS2005. It really does keep things a lot cleaner a lot longer.

******You maybe Noticed** on our Reisters.Net WebSite where it says "Ridge-Area-Deliveries-Monday"....????? But we actually

Deliver all around the Ridge every day....Except Sunday.

Hope You All Have a Super Fun Weekend !!! Be Safe !
