## Fruit Ridge Notes - Apples - Thursday - May 25 - 2017

Greetings All.....

\*\*Yup---**Exilis 9.5SC**---5X more Concentrated than competitive 6BA formulations....Comes in Easy-to-Pour 1 Quart Bottles .... To get a "100 PPM"-Tank-Mix---Dump in 12.8 oz-per-100 gallons

You want **125 PPM**...?? ...in a **400 gal.Tank**...?? Dump in 4 Pints... which is 2 of the new 1 Qt.Bottles.

\*\*Did you know you can use a Full-Rate-Butt-Kicker-Zeta-CyperMethrin-MustangMaxx-Insecticide.... for **\$3.85-Acre**??

\*\***Refine 3.5WSG [NAA]** ---- Use 4 oz - per- 100 gallon to get 10 PPM

\*\*You still have 2 - 4 Weeks left with your EBDCs ...depending on Variety.... as pertaining to your 77 Da.P.H.I. stipulation.

\*\*Captan 80WDG is by far the best "WorkHorse" for Scab issues..... like as in Secondary Scab issues also. I'm praying none of you get stuck with that crap.

Secondary----Use 5 lbs.Cap80WDG at least 3 Applns 1 week apart. Your seasonal limit is 40 Lbs..... 0 Da.P.H.I..... 24 Hour R.E.I.

\*\***Regalia** Tank-Mixed with the **CS2005** and our **Formula II-SW[SeaWeed]** delivers to your Tank**Nutritions--Bactericides--Fungicides--BioStimulants** ---- for Very Cost-Effective.

It's the popular **1-2-3**..... If you have never checked this out...??? ...You really need to.

It's pretty amazing against FireBlight and 9 other Diseases MSU tells us to be protecting against all Summer.

Lots of Guys have looked at this seriously on their 1-2-3-4 Year old stuff... to prove to themselves the "'No-Phyto-\*No-Russet-\*No-Disease Symptoms-Results"' this Tank-Mix brings....

Blessings on Every One of Your Undertakings.....r
