Fruit Ridge Notes
from Ron Reister
C.C.A.

Greetings Blues Pals

I'm hoping all of you have had some really nice Rains without anything 'hard'.... In N.Y. some guys had Hail...pretty ugly.

If any of Ya'll have any experiences from the use of FalGro Gibb Acid a few weeks back...?? During Bloom ...for help with Crop-Set...??? I would be really interested to know how you like the Results.

I've been listening to....

....Some Apple Guys ...Doing a similar trick using a different tweak of GibberelicAcid turned out really quite favorable for most Guys.... like 75% - 80% of the Guys are impressed.

Adult Female SWDs can lay hundreds of eggs in its life-time-span of 2 - 3 weeks. As you know the Tests at Product-Delivery time are rigid.... And MSU Amy says that the SWDs have never been trapped this early in Michigan before... Says that they're expecting a High-Pressure-SWD-Season.... Dont delay your Sprays to eradicate them.

Your best Tools for use in SWD Control are....Referencing the MSU-E-154 and some of their latest Bulletins.....

Delegate 3 DaPHI Rated E... Yup...Works...But...\$\$
\$49 - 6 oz Too\$\$\$High
Danitol 3 DaPHI Rated G... Yup---Good
\$22 - 16 oz. OK
Exirel 3 DaPHI Rated E... Kinda New....No FeedBack
\$64 - 16 oz. Too\$\$\$High
Entrust*** 3 DaPHI Rated E... OMRI
\$70 - 6 oz OMRI...Ouch
Rimon 8 DaPHI Rated G... Good ...good.
\$38 - 24 oz. OK
Asana 14 DaPHI Rated E... Awesome
\$5 - 9.6 oz. **Like**

I'd be piling into the Asana until that PHI is up....You're allowed 4 Applns-Season.

You're allowed 6 Apps MustangMaxx [24 oz.Total] ...You're allowed 5 Apps - Imidan You're allowed 5 Apps of Brigade 2EC...

If you get into a corner...Do a 1 lb.Lannate.....Its a ButtKickr...but kinda a little pricey...??

And....Remember "Hero" has MustangMaxx and Brigade in it....so it kinda muddies the water trying to decipher Seasonal Limits. I really like Hero but....Others are less \$\$\$

Dont Forget about the low-life-miserable-Profit-Trashing-Berry-Gobbling-Birds.... Give them a good dose of Tear Gas.... That "'Avian-Control'" product really works. It smells great to you and me...but the Aerial-Thieves think its Tear Gas..... It drives them crazyand it drives them away.

Good Grief.... I can't believe Tomorrow is the 1st Day of Summer ...r

Hey Blues Guys & Gals

I was just reading in todays MSU News that Delegate and Entrust can now be used with a **1 Day P.H.I.....** Formerly a 3-Da.PHI....

This is Very Wonderful for when you're in a jam...**But**Delegate is close to \$50 and Entrust around \$70...so neither are my 1st or even my 2nd Choices...

Also I meant to mention on my FRNotes an hour ago.... Dont forget about using your Max-Seasonal-Limit of Imidacloprid 4F[4SC]--Alias 4F--Montana4F--Provado4F....All Imidacloprids....

Just make sure its a 4F labeled here--Michigan--Blues-- There's a lot of them are not labeled for us. Keep it simple...Order it here....

Here's the incredible thing You're allowed 5 apps of 3.2 oz - Acre....

Each App is **less than \$2 !!!!!**

This stuff helps Huge against SWDs...It's a 3 Da.PHI....

And as you know it is also labeled for all the Aphids...All the Beetles...and the Chafers....Grubs...Hoppers....Maggot.....Sharpshooters and Thrips.

This stuff is awesomefor **\$2 - Acre !!!!**

Just Sayin.... Thats some **Smart Money** right there

Warmest Regardsr
