Fruit Ridge Notes - Friday - August 18 - 2017

Hi Guys & Gals Hope All is Well with Your Friday

We Really had some nice Rains here Day-Time-and-Evening Thursday and Also at Home--Gooding and 16th

******Q & A... Actually I am not sure....Don't Know.... Who...??** ... if Anybody around the Ridgearea is Selling or Stocking or Promoting

the *SeniPhos*...??? ...for Applying trying to Color-Up Apples???

As you know I am a real Believer in "**Blush**"So if any of our Guys want to look at this "*Phos*" Approach, I'm gonna try to get them to try our **DiKap** from *Redox*... Why...? Because.... There are already several really sharp Guys that are really revved up about how the **DiKap** Phos-Potassium-Type-stuff works for Coloring up their Hard-

to-Color-Varieties...

******Internal-Worm-Killer-Product-Details....**

Assail 30SG 7 Da.PHI Allowed 4 Apps of 8 oz -- Also helps against A.M. and BMSBs

Delegate WG 7 Da.PHI Allowed 28 oz/Season -- 4 Applns -- Not to strong on A.M....

Altacor*** 5 Da.PHI Allowed 9 oz/Ac./Season -- 4 Applns -- Won't get A.M. or BMSBs

Belt SC 14 Da.PHI Allowed 15 oz/ac/Season -- 3 Applns -- Not for A.M. or BMSBs.

VoliamXpress 21 Da.PHI Allowed 31 oz/Ac/Season -- 4 Applns -- Gets A.M....Some Control of BMSBs.

This VoliamXPress stuff is actually Warrior [*LambdaCy*] and *Altacor*...So ... Ya gotta be sure to watch those Seasonal A.I. Limitations....Gotta do some Math.

*****Head-Scratcher**--For some reason the MSU-E-154 has a '14 Da.PHI' for Altacor [Pg.310].....???

...But the AgrianWebSite and the DuPont Label say 5 Da.....with a 4 Hr-REI

*****Yup...Our Aluminum Ladders** are made by **"Strathmore Ladder"** ...California.... We enjoy a KaZillion very Impressed and Satisfied Growers using Strathmores.... Ya gotta remember... Coming out of California actually gives us a huge advantage over some other Manufrs located in other States where the "Regulatory" BullCrap isn't near as burdensome and finicky as it is in the "Land-

of-Fruits & Nuts" ... That really does work to our advantage !!!

*****Reminder---Using the Silicone Surfactants** with Captan or some Calciums can get you some weird Leaf-Yellowing...Leaf-Drop...and maybe some Fruit-Spotting....

*Just sayin....*There's a lot of **'SIL-Fact'** goin out the door

right now.... Going out with a lot of Retain.

*****Some Apple Disease Control Product Detail Reminders**

....

| Product | -- Da.PHI | -- Seasonal Limits -- |
|--|-----------------------|---|
| Captans | -0-Da. | 32Lb.A.I.[40Lb.Cap80WDG |
