Fruit Ridge Notes - Friday - September 22 - 2017

**Wow Hot Not Good for Anything that I Can Think Of
.... Nuthin.**

I was Just Recently Visiting a Fresh-Pack-Facility ... The Honey Crisp were absolutely Beautiful Packing out 99.7%. It was mid afternoon and there was still the first Bin of the Day under the "2nds" discharge..... and that Bin was only 2/3s Full. And this on a \$60-Minimum-Market for the Packs he was doin.... Some were higher of course.... Like the Larger Tray-Pack-Sizes were \$80.

It was just so encouraging.... And One Grower that he was Packing for had brought him over 3000 Bins of these Pure-Candy Honeys You can do the Math on that one..... It's Just a beautiful thing.

There's still a few Growers that could use a few more Harvest-Helpers.....

In-Between-Blocks-of-Harvesting If you get time to maybe make a Fall-Appln on some New-Young-Non-Bearing Blocks??? There are some Very-Low-Cost-Efficient-Nutritional-Bactericide-Fungicide Choices to consider. Efficient. Low-Cost.

Please Call me or EMail me or Text me...?? **Office-[616-887-9933](tel:616-887-9933)....
**[EMail-ronaldg.reister@gmail.com](mailto:ronaldg.reister@gmail.com)....

.....or - 'rgrrgs@aol.com'... **[616-437-0073](tel:616-437-0073) = Mobile for Texting
IdeallyIn the "Perfect World" ... We get a Foliar on these New Blocks, and a Fall-Herbicide-App with the right Nutritional in that Tank-Mix also.

This Goes for All our **Blues** Pals and **Cherry** Grower Faves also.... and our Good **Grape**-Grower-Guys ... as soon as you finish Harvest.

**Wow Hot Not Good for Anything that I Can Think Of
.... Nuthin.**

I had a Grower Pal mention "Bee-Crap" ...and maybe some "**Wasp-Poo**"?? ...Crazy Crap I'm telln Ya..... But it is for real in some areas....Especially on Honey Crisp....?? I just hope the GAP-Inspectors aren't lookn for this crap. Just Sick. Pathetic.

Will this crazy Heat maybe help...?? I can't believe the Bee's like this hot-sunshine-98°F-stuff when they can be resting in the shade...??

This Issue is gonna be mostly found near Your own or Your Neighbors Apiary.... at least where Bee's are the Culprit. But the Wasps?? I dunno.

Check with Deanna or me about what You can be doing to Prevent SunScald--SunBurn Low-Cost.

It Appears All You Guys with Irrigation are gonna have much happier Trees goin into Winter. For Sure.

.....And here in the Ridge area, the Drought really wasn't very severe....??? Not over 3-4 weeks really ...???

Have a Safe WeekEnd....r
