Fruit Ridge Notes  
from Ron Reister  
C.C.A.

## Fruit Ridge Notes - Monday - July 24 - 2017

### Hey Pals... Hope You Had a Great Weekend ...

**We find the Feed-Back and Questions** we get on Fruit Ridge Notes very valuable and informative.....and Sometimes, quite thot-provoking. Whenever we can, unless the Grower doesn't want it mentioned for some reason, we like to share and respond with the "Q & A" in our **F.R.Notes** without using our Grower-Pal's Name.

...Really Appreciate You Guys ...Thanks Again.  
And please remember that all Fruit Ridge Notes are 'Archived' on our **Reisters.Net** Site.

\*\*\*\***Guys & Gals** doing the Organic-Production really like the "BroadSpred-Green" .... our **OMRI-Listed Silicone Surfactant**... Really Good Stuff !!

\*\*\*\***I am Seriously Watching** ....some incoming results out of **Oregon State**.... a Trial on Pears & FireBlight... Where they used all sorts of Products. The main thing that really jumps out at me really big right out of the gates is that the **1 Qt. CS2005** performed for them the same as the **4 QtsCueva ...Sweet Fancy Moses**.... That's **Huge** !!! That makes "**005**" **1/3 the cost**-per-acre of those guys 'down-the-street' ... That's just crazy huge !!!

**And**....They used **1 Qt. "005"** in **100-gal-Water** ....**instead of 50 GWA** like we do here.... so their PPM was **1/2**... a whole lot weaker than our normal mix here.... More crazy good news for "**005**"to come I'm sure .... But Wow... **This is huge**.

\*\*\*\***BioProTect**....Our new ButtKickn "**B.T.**" "Worm-Killer" ..... All Good Reports and Feed-Back so far .... If any of Ya'll have had any 'Lack-Luster' performance with BioProTect....??? I would really like to know.....??

**Same** goes for "**AvianBirdControl**" product... Hasn't anyone had any 'Not-so-Satisfactory' performance yet...?? I'm hearing only all good things.

\*\*\*\***There's also** gonna be a huge List of **Nursery Folks** at **Alicandros Research Tour** next Week

14050 Fruit Ridge Ave  
Kent City, MI 49330

We're on the Web!

See us at:

[www.reisters.net](http://www.reisters.net)

Wednesday ....Aug.2..... to RSVP--- send to  
"[LindsayLamora@agrassistance.com](mailto:LindsayLamora@agrassistance.com)" ....and you can check-out  
their WebSite at "[www.agrassistance.com](http://www.agrassistance.com)"

\*\*\*\***Q & A .... Right...No ...No *AzoxyProp*** on Pears or Apples.  
Pretty Crazy. I love AzoxyProp.... But the strobie-part of it is  
"Abound" ...and will actually Phyto-DeFoliate some Apple  
Varieties....like Mac Types. I have some Pals by BerrienCenter that  
have seen it 1st-Hand...Pretty Ugly !!!

\*\*\*\***Brix---Increased Levels Fruit Soluble Solids** is right at  
100% consistently a result of *VitaZyme* BioStimulant Apps on all of  
our Fruit Crops. Alicandro says the other Result that is like *Tied for*  
*1st Place* when using VZ on Apples is the "Return-Bloom"  
thing....very consistent. Alicandro says blocks with heavy CropLoads  
can especially benefit from an extra PreHarvest VitaZyme Appln ....  
for both Reasons.

\*\*\*\***The ORO-Agri** Products are an extract of the Orange-  
Peel.....Kinda crazy. Their product called "**Prevam-Ultra**" actually  
penetrates the surface of soft-bodied insects like Mites and Aphids

and drys them out...then they die.   And as a bunch of  
the Organic Guys & Gal Pals have found out.... These Orange-Peel-  
Products really do work..... And I have regular-Production-  
Conventional Guys using a bunch of this stuff as well.

Also----Some Blues Boys use it also because of the pleasant  
aroma...like orange-peels....to mask their stinky Asana or

whatever....   Love it.

***Hope You Have a Nice Monday Eve .....r***
