Fruit Ridge Notes - Saturday - July 15 - 2017

Good Morning All.... A Beautiful Morning that Started Out Quite Foggy

....**It's the proper timing** for the next Appln of "Parka" on **Apples** for several Guys..... We're striving for excellent coverage... Use a 1%vv or 1 ga.-Acre. on Full-Production-Size-trees....just pencil-down from there with your TRV.

....**Wherever there are just way too many Apples** on the Tree.... Be sure to do extra VitaZyme Apps For *many* reasons.... like ****Fruit Size and **Quality **Brix **ReturnBloom **Over-All-Tree-Stress-Relief *******Any Guys using and really diligently watching VitaZyme results, are always impressed..... The most critical issue I see right now on some of these Heavy-Laden-Blocks is the Return-Bloom-thing.

You probably should have a tickle of Refine[NAA] in that tank also...?? Wow---Some of the Gala are just way over-loaded.

....**SunScald--SunBurn** on **Apples** and in All Crops is getting some Folks real nervous.... Ask me about the old "PurShade"and the *PurShade-Clear*" without the "Residue" and how these Products can help you prevent Sun-Burn-Scald -- [616-887-9933](tel:616-887-9933)-ron

....**Some very Smart-Money-Blues-Boys** are Ordering Significant Quantities of These....

AvianControl for Birds

CS2005

MainStay Calcium-S.I.

Regalia

Imidacloprid [Alias 4F]

Grandevo

Mustang Maxx

Hero

Brigade

SAver

....and several of the other **Redox** Products.... Besides the **MainStay-Calcium-S.I.** This "**S.I.**" really makes harder Berries

....**"Never trust** a Government that doesn't trust it's own People with Guns."**" ...Ben Franklin**

....**And for All Crops...Many Universities and Hundreds** of pretty-high-priced-well-paid-Independent Researchers are making quite a fuss lately about **"Soil-Microbial-Activity"** ...like in the last 2-3-4 years.... ??? ... A lot.... Looking at this for in **All Crops.**

All of you **Redox Disciples** know of course that the Scientist at **Redox University** have been working with this for over 20 years now.... and they have a pile of very intensely-in-depth and impressive Data.... and they have hundreds of very satisfied & profitable Growers proving and reinforcing more and more of their Practices and Formulas and Theories around the Planet every day.

If you will take a break.... Get yourself a good Pour.....Pull up a chair and type-in **"RedoxChem.com"** ...and then clic around the Web-Site..... for maybe just 15 Minutes....??? You will then likely agree that these Redox Guys are way out ahead of the boys down-the-street that are now talking about Soil-Microbes.... and from what I have been told about the stuff down-the-street...??? It's crazy-pricey and kind of a nuisance to work with.... ??? Some Guys explained to me that it's a very *serious nuisance*.

I just don't want anybody getting "Duped" I just so desperately hate that when really Good Guys get talked into something and pay-thru-the-nose for it.... and then scratch their heads looking for results..... Their money gone down a rat-hole.

The Science of Redox is very Hi-Tech... and Nobody else has their Formulation-Technology ...

"Redox University" is a Name I use for the Redox-Head-Shed-Burlee-Idaho where our Sales Team goes to "Redox U." which is their-3-Day-Training Sessions whenever we want to...whenever we can. Please take note of any Redox-Seminars that I mention in these Fruit Ridge Notes.... for you to attend to help you get more of the Basic Fundamentals. I don't pretend to understand all of it.... I'm not a PhD or a Scientist.... but I really do find it all intriguing ... And the Redox-PhD's have Staffers embedded at several Universities World-Wide... doing Research and Trials. Its a pretty amazing very cool Company.

Hoping You Get a Chance to Enjoy Your Weedend !!!!

.....I
