Fruit Ridge Notes - Saturday - July 21 - 2017

Greetings All ...
....Pretty Doggone Warm ...

*****In the last couple years** I have had 2 **Blues** Boys and 1 **Cherry** Guy try a special **Post Harvest** Appln with a very unique product we have here, called "**Ridge-Bio-Stim**" which was originally developed as a Special-**Fruit-Set**-Product to be used in a 3-App-Program at Late-Pink++Full Bloom++Petal-Fall.... on virtually any-all Crops.

And Now...after watching those Guys ...and because of the Proprietary Blend of Very Unique Special Ingredients, it is making a very impressive **Post-Harvest-Appln** Product for next Springs Fruit-Bud-Set.

It is actually a very Soluble-HiTest-N-P-K=**4-0-1** with elements out of Ascophyllum Nodosum North Atlantic SeaWeed.... combined with Magnesium, Sulfur, Boron, Manganese, Molybdenum, and Zinc.... All derived from the most Hi-Test sources.

This has performed very impressively under different Names all across the Country as a Fruit-Set-Product.... on all Cucurbits and Vegetables and all Tree Fruits and Grapes... all Stone Fruits... Blues ...all Cane and Bramble Crops ... Really very Impressive.

Please consider a look at this...Using 4 - 6 Pints-Acre in plenty of Water for good coverage.... a 5 Pt-Rate = \$16.72
When looking at all the Ingredients in this stuff....I think that's a pretty good deal???

You can add most any Pesticides you need to in this Tank....Within reason.

Just a Thought Thanks Happy Saturdayr
