Wow !!!!! 3 Inches of LifeGiving Rain at Gooding St. where we live.... 13 Mile Rd West

.....Praising Almighty RainMaker God !!!!! ...for Many Many Answered Prayers !!!!!

******Just** in the last 5 Days I have had 3 Guys tell me they were not aware that **RGSs** uses **John Deere Finance !!!**
Hey Ya'll !!! We--RGSs-- do use **J.Deere Finance**. It really helps a lot of our Customers do more Business here....to take advantage of some **serious savings** on conventional Generic products.... and helps them get into our long-list of Proprietary Products that are not available down the street.

....Like for *Example*.....

******Some** of you that are using traditional conventional Nutrition...like TechMag....EpsomSalts....Ca1Chl2....many many others....like maybe 100 othersand You are really carefully watching the Results with Leaf-Tissue-Analysis, and You are really very disappointed. You're not seeing any bumps in Nutrient where & when you should be.

Please consider the really advanced crazy Technology known as RedoxThey have apprx 20 AgNutrient Products that we promote, and all of you guys that are using, and really watching actual real Resultsand really measuring the Results, are continually amazed with the Results. It doesn't seem to make any difference which Crops you are into... Redox makes a very visual and hugely profitable difference.

One of my FaveGrowers that really watches... really meticulously scrutinizes real results... did an extensive Side x Side x Side x Side Trial.... Using a Redox Program, and an old tradition Conventional N-P-K Nutrition Program... and a Competitor from 7 Miles South of us ""Super-Duper-Program"" ...and another Competitor from a few miles North of us ""Super Duper Program""Spending a huge-wide-range of Input \$\$\$ Costs.... as one of the ""SuperPrograms"" was *huge* money, *over twice* what the Redox Program cost was.... and the other ""SuperProgram"" was like 25% maybe 30% *more* than the RedoxProgram.... while the Conventional-Traditional program was only *slightly more* than Redox....with the Redox being the least expensive Program.

But.... the carefully measured Results were astounding.....Not at all what some Guys anticipated. The real HugeMoney ""SuperProgram"" performed no better than the old granular regular Conventional N-P-K Program !!! The other ""SuperProgram"" that costs 25-30% more than Redox performed a bit better than the other 2....while the Redox proved a very Visual and a Measurable huge Improvement.

You just simply need to carefully consider the Crop-Needs.... and then carefully watch the Post-Appln-Results....Ya gotta Measure it.

Dozens of Ya'll in **Blues-**Grapes-**Hops-**StoneFruits- **Apples-**Vegetables...and even some **RowCrop Guys have seen this....And are serious Believers.

OK----Jumpn Off my SoapBox.... Wishing You a Simply Grand Fathers Day WeekEnd !!!!!

.....I
