Fruit Ridge Notes - SmallFruit--TreeFruit - Tuesday - June 6 - 2017

Warmest Greetings to All Ya's

****Primary and Secondary Scab really like what we have had a bunch of ...especially early on..... Soggy Weather ...Cool & Cloudy conditions ...very Lush new Growth, much easier infected than the hardened off waxier surface of some of the older Foliage we see now. And now we have the FuzzyFruitlet to be concerned with....**

Some Re-Reminders.... Why VitaZyme is so critical on TreeFruits....

****The Key to reducing your Production Costs per Bushel *is by increasing long-term-Yields*. Alicandro has documentation of Growers Blocks *averaging over 1200 Bu.* on Biennial Varieties like Fuji--Honeys--JonaGolds..... KeyWord==Averaging Year In....Year Out ...Averaging **over 1200 Bu.****

****Quote-- "Because this tried and tested BioStimulant Program *just plain works*."Jeff Alicandro**

****The VitaZyme 4-Appln-Program is *Sooo* relatively *Inexpensive*..... with the **4-Appln**-Cost being less than \$32-Acre ???!!!!?? ...For the **Season** ...??? **\$32**--Affirmative.**

****Keep in mind about that good sized block of IdaReds and Romes in WayneCounty N.Y.... that is *Averaging* over 2200 Bu....with highs over 2700 Bu....a Processing block...But of course still paying some serious Bills with those Yields....Average Yields.**

****VitaZyme has very serious advantageous effects on *all* TreeFruits.... Peaches--Pears--Cherries--Plums--**All**.... Crazy impressive. And also on Blues!!!**

****For the Apple Guys and all TreeFruits and Blues the normal "Program" is 1 Pint--Pink....1 Pint--PetalFall....1 Pint 2nd Cover....1 Pint 15-20 Days PreHarvest.**

****There are no P.H.I. and / or R.E.I. issues with **VitaZyme**....As a matter of fact, the Guy that is in charge on VitaZymeSales for Eastern U.S. actually drank some one time at a Meeting.... Crazy.**

****This **VitaZyme** stuff just simply works wonders for Return-Bloom Bud-Development..... Oh, and, This is most-assuredly Not Snake-Oil !!! Alicandro has worked on many snake-oils...and dismissed them after 1 or 2 years of Trials. He has really really liked VitaZyme for over 10 -12 Years now.**

****VitaZyme works wonders on all Vegetables as well....increasing yields by relieving stress. We have huge Vegie Guys using by the Totes.**

****Yes of course there is a **OMRI**-Approved VitaZyme.**

****Apparently N.Y. has some Secondary Issues as well.....???**
Alicandro told some of his guys the Apple Scab Season may not be over until the Apples are in the Bin.....as some of those guys could not get thru the Primary battle unscathed.
****And.....Some of those NY Guys got too much Hail yesterday....Some for the 2nd time, with the 1st storm not being so bad..... Alicandro told them to get after it asap with 1-2 Pint CS2005 and Strep....and InSpray-90 [orRegulaid]. I am very anxious to find out that none of those Guys have any Chemical-Caused-Russet come the end of August.**

****Hopefully most of you are remembering the Research-Facts from WorldReNowned Dr.Jim Adaskavich--U.C.-Davis---that CS2005 is giving over 99% Control in Bacterial Diseases that have already proven to be 'Copper-Resistant'...???** Tell me that isn't weird ! But crazy great for us. "'005"' is also for 'Organic-Production'

So.....The Californians have become huge 'Users' 
 just sayin.... Wherever you have F.Blight concerns...?? Its a Bacterial Disease....and it needs a Systemic Copper for Control.

.....Can you tell I just talked with Jeff Alicandro ...???

Best Regards to Allr
