Fruit Ridge Notes - Tart Cherries - Friday - June 30 -2017

Hey Tart Guys and Gals This is Pretty Huge

****The **M.D.A.** just now today authorized using **Mustang Maxx** for **SWDs** with a **3 Da. P.H.I.**which was previously 14 Da.PHI. This is big. This stuff is less than \$1-oz...Use 4 oz-ac. You're allowed 2 Applns right now---7 days-apart. The REI is 12 Hrs. ===== **\$3.26** per Acre. This stuff works. Be careful to use the full 4 oz.Don't cut the rate.

Do not make any Applns closer than 7 Days apart. You need the UpDated Label for Tarts just developed by FMC Corp. for this MDA-Exemption = 17-MI-04Have it on your DashBoard when making the appln. Check with Deanna for that.

The Effective Date for this Exemption is Today. This is only for Tarts in Michigan.

3 Da.PHI \$3.26-Ac Just Sayin....This is Big. If this stuff was \$28-Acre, I wouldnt be wasting my time writing this.

Warmest.....r
