Fruit Ridge Notes - Thursday - July 27 – 2017

Well.... My Dad would Say.... That little 7/100ths Misting of Rain this A.M. was Better than a Hot-Dry-Wind

******Vydate L????** a **Generic** called "**Return**" ... Seems to have the same Label for Michigan as Vydate L.... Its labeled for Sweet Potatoes.... Which is the same as Vydate L....only Sweet Potatoes, but then of course all the Vegetables and Tree Fruits and Cucurbits and Tomatoes All of the above.... The Retail would be apprx \$146-Gallon....like less than 1/2 what we've been watching with Vydate....???? I know the Vydate has been "Out-of-Stock" for most Folks for well over a Year now..... and just crazy huge expensive if we could find any. Please let Deanna or Nancy know right away if you need/want any "**Return**"as we would need to get it in for Ya'll... "**Return**" **Insecticide/Nematicide**"---It is of course a "**R.U.P.**"

******Blues BoysImportant** Reminders for Your **SWD War...**
The Shortest Days P.H.I. Weapons....

Zero -0- Days

Grandevo

1/2 Day

Pyganic

One Day:

MustangMaxx+++ Brigade+++ Hero+++ Assail +++Malathion

ThreeDay:

Imidan+++ Danitol +++ Lannate +++Exirel +++Delegate +++Entrust

But---Keep in Mind.... the "**Minimum-Days-Between-Sprays**" **This is so Huge....** You can actually have Imidan in your Tank

really very often...Like virtually every day.... But then others like Mustang Maxx you need 7 Days between Applns....Malathion=7 Da., Brigade and Hero=7 Days.... Exirel=5 Da.... Lannate=**3** Days [**with the 3 Da.PHI==This is Great!!**]....

Those with **Zero-0- Days** Needed Between Sprays are **Imidan, Grandevo and Pyganic.**

So....Your Best-Chemistry-Friends these days when considering All-of-the-Above Are....

***Imidan--*MustangMaxx--*Hero--*Brigade--*Lannate ----All serious Butt-Kickers**

Several Guys are also putting Grandevo into their Rotation..... You Organic Guys should for sure really be doing **Grandevo** a lot. Those Products that do help you **but** have their greedy hand grabbing your Check-Book-Balance.... **Exirel=\$50 ...Entrust=\$40 ...Pyganic=\$40**

I really seriously think the Smart Money is also keeping **Imidacloprid 4F**...like Alias or Montana or Nuprid or Macho4F... **in the Tank every 7 days**.... allowing for a **3 Da.PHI**.....Seriously..... **\$2-per-Acre. Remember**....Imidacloprid is a "Neonic"just as Assail is a "Neonic" ...

Also Remember Lannate ha some Special Restrictions for People going into the Field ...like a U-Pick-Scenario....special restrictions. **We** are allowed 7.125 Lb Imidan-Season..... 5 Applns.... But Not a R.U.P.

*****The Wheat Price is Up**.... Thanks be to God !!! Most Yields were So-So-Medium...?? Not a Bin-Buster.... But the Quality was over-all pretty doggone Great too...

Way Better quality than last year. One Guy tells me it was just to wet and cool weather at planting time last Fall....hindering the Yields.

*****Fast Growing-Non-Bearing-New-Apple-Plantings** are at High-Risk for**FireBlight** Infections right now....and so is your Nursery.

Alicandro says to keep the MagnaBon "**005**" on those high-risk Blocks every 7-10 Days where the threat is huge....Every 2-3 weeks for other Plantings.... I suggest adding a touch of Formula-II-SW with it....?? **Ideally**... Really Ideally... I would do the "**1-2-3**"....and by ciphering my TRV, I'm mathematically down to \$8-\$10-Cost-of-Actual-Orchard-Acre on those Little Guys....
.....The "**1-2-3**" == **1 Pt. CS2005["005"]** plus **2 Pt.Regalia** plus **3 Pint Formula-II-SW** These products all work synergistically as Fungicide-Bactericides....and Nutrition....and the SeaWeed is a BioStimulant..... Also, You won't have any "Wet-Feet" Symptoms in the "**1-2-3**" Treated Blocks either.

*****Fruit Ridge Fest Tomorrow !!!** *** **3p - 8p !!! We Can't Wait to See You !!!**

Best Regards....r
