Fruit Ridge Notes - Tuesday - October 10 - 2017Lookn at Potassium

Greetings Friends

We are Hoping All of Your Harvest Efforts are Proceeding

Safely and Bountifully to the Finale !!!!

Whenever you get Time.... for a 8-10 Minute *'Read & Ponder'*
Please take a look at the Attached.

Good stuff....Quite Enlightening

Of Special Note is the Solubility of the various forms of
Commercially available Potassium Fertilizers.....

Solubility is defined as in Lab conditions 22 degrees Celsius [72°F]
in De-Ionized water.

.....Remembering that Solubility is so Critical for Plants to Uptake
Potassium....as of course Plants *Drink*...They do not Eat.

Also----Please let Deanna or Nancy or me know if You Need-Want
Tickets for the Upcoming Dinner & Auction Party Event---November
4--Saturday--St.Vincent DePaul Bauquet Hall -- Conklin-Michigan --
5pm - 11pm --- Great Party Great Cause....

...and Did Ya notice my GoofBallBrainFart in last weeks Email when I
said Nov.4thwas 3 weeks from Saturday...?? It's actually 3

weeks from *this* Saturday....
