## Fruit Ridge Notes - Wednesday - June 28 - 2017

### Greetings Everybody .....

\*\*\*\***Just to** reiterate ... It's huge to remember *not* to spray any **Motivate** [Ethephon] or Verve or Proxy or Ethrel .... or ethephon by any other name .... on any Crops when your 4-Day-Forecast is calling for any real-warm-hot-85°F-Days.... Very ill-advised..... Highly Un-Recommended.

\*\*\*\***For All of You Organic Production** Guys.... **Pyganic 5.0** is indeed labeled for just about everything you don't like in your Orchard..... StinkBugs... Pear Psylla, Codling Moth... SWDs, FruitWorms .... LeafRollers, JapBeetle.... a dozen of the Beetles actually.... and LeafMiners... Scales, some of the Mites.... and most all the different Aphids.

The Labeled rate for almost all of the above is 5 - 17 oz-Acre.... the most common use rate is 10 - 16 oz-Acre. It has a Zero [-0-] Days-P.H.I. with a 12 hour REI.

You can make 10 Applns - Season if you want..... There is no "generic" Pyganic that has a OMRI Listing Certification.

There is a SameThing-SameManufr-SameAll-of-the-Above Product ...But without the OMRI Listing, that is quite a bit less money.....Called Tersus....Ask Deanna if you want that product ...We do not normally stock

that one....because most All of You want the OMRI-Paper-Trail. 

I regret that Pyganic is so pricey.... At the 12 oz-Ac-rate = like \$40 ....while the Conventional Guys use MustangMaxx for less than \$4 -

Acre.....Just Not Fair. 

\*\*\*\***We have here** in stock most all of the Cool-Tools you may want for

controlling Obliques....

\*\*\*\***Here Attached** are some **Photo's** of some of the Bartletts and Bosc and Asian Pears interplanted in that one 10-Ac-Apple-Trial Block.... Pretty nice crop actually.... They're lookn really happy....considering that they're crammed in between 24 Yr-Old

Red Dels on 8 Ft.Spacings.....  ....My Bad.

\*\*\*\***Talkn with** some Wayne County--N.Y. Associates.... They've been using a ton of CS2005.....Way to much Hail out there.... Some guys have been hit twice. And there are quite a few more of them there battling Secondary than there are around here.... Feeling bad for them.... Especially after their lousy-crap-season of Drought

2016. 

Happy Wednesday PM.....r
