Fruit Ridge Notes - Monday - December 18 - 2017

Hello to All..... We're Gettn a Serious Thaw here on Kent Citys West Side.....

Only 6 Shopping Days left til CHRISTmas...if Ya count this coming Sunday??

The 'Childrens Recital Worship Service' at Church was last Evening I'm Feelin Blessed.....

******I don't recall** ever emphasizing that our 10-Ac.Trial-Blocks include several very FireBlight Susceptible Apple Varieties ...plus Pears....plus all different kinds of Pollinators Inter-planted..... Making for quite a easy and inviting host for FireBlight...???

...And then of course 1 of these 10-Ac-Blocks has a bunch of InterPlanted Stone Fruits....like Nectarines--Peaches--Sweets--Tarts--Cots--Plums--Prunes, Totaling 20 different Varieties.... and then also some Grapes.

Really Crazy right ...???

But Crazier still is that we have never had any threat of a F-Blight Infestation and maybe just as Crazy is that after a full-Season of **CS2005** Applns, absolutely no PhytoToxicity on any Stone Fruits or Apples or anythingNo Phyto....Zero. And no Copper-Related-Russet on the Golden.... for 4 Years Straight now.....

We have used no real pricey Antibiotics...or cheap ones.... We have used no ActiGardBut.... We have used 2 Applns of "**005**"from **MagnaBon** early at the 1 Qt-Ac.Rate....and then 9 more Apps "005"at the 12-16oz.-Ac. Rate..... Apprx \$75 worth of "**005**" Copper for the Season.

.....and "005" is **OMRI Listed**.....

So.... Just somethin to ponder with your EggNog..... I know a few guys that will do 2 - Kasumins some years.... \$110.00 ...????
...And "005" is getting [or Helping against] A.Scab--Mildew--All Summer Diseases.....

Warmest Wishes from Fruit Ridge Avenuer
