Fruit Ridge Notes - Friday - January 12 - 2018

Hi Favés

******Did You Know ...** That Surfactants-Adjuvants-Wetting-Agents-Silicones..... That are Labeled for "Certified-**Organic**-Production" are kinda hard-to-find...??? We have them.

******Q & A....** Yes....Indeed.....The BumbleBee"**Workers**" actually do die naturally just a few weeks after they are all done Working for You. The Queen and some Drones make it into hibernation in a 'mouse-hole' ...or an old tree-stump....?? And the Experts calculate that over 1/3 of them actually make it Up & Out after the Winter and are viable workers in your Crops the following Season.....and of course also ReProducing by Thousands in the Spring.

I like to tell Guys that if you use these Kopperts Bumbles 5-6-7 Years straight, you will likely find that you have a significant 'Task-Force' of your own BumblesNative to your own Farm !!!

Pls get your Bumbles-Order into TeamDeanna ASAP....[616-887-9933](tel:616-887-9933) [616-678-7706](tel:616-678-7706)..... and you can also see the DeeTeam EMailAddresses in the **Cc** Box above.

******Q & A ... Yup...** Thanks for the Reminder !!!! Our Proprietary Product called "**Ridge Runner**" is made up by formulating 1 part Indy and 1 part InSpray-90 into 1 product So ...There's a bunch of our Guys using 1 Quart-per-100 Gallons **Ridge Runner** which gets them their 1 Pt-Indy and 1 Pt-InSpray-90 per 100 Gal. of Tank-Mix.... Pretty Slick Deal.

....and Yes....the InSpray-90 is a 90-10-N.I.S....Top-Shelf quality...No 90-10 is any better. There are some others every bit as good....

Regulaid...Activator-90...and of course most BNRs have their own...But almost always they are really gettn "All-the-Money" for all of those....???? ...like 30-45% more than our Retail-Pricing for InSpray-90....

One Guy I was visiting with was really animated ... Emphasizing how he looked thru his total-Season-long-Invoicing from the BNR"Down-the-Street"....wherein he calculated what he had spent just on Surfactants-Adjuvants-Buffers-Etc....He was horrified. It was huge.... way too much.

Our Drift-Retardants -- Deposition-Aides--FoamBusters--SiliconeSurfactants.... All of our Adjuvants.... are always way less cost compared to 'down-the-street' ...

Cost of Ridge Runner??? For some of you Guys using really Low GWA [**Gal-Water-Ac**] it's about a \$1 - Buck-n-Acre If Using 40 GWA...?? Apprx \$2.80 ... Think about it...for doing all of those Job-Descriptions I explained yertterday that **Indy** does [**Pls Review**]...Plus the XtraBang of Top-Efficiency-Spreader-Sticker the InSpray-90 component delivers... ????

Ours is a serious Bargain when comparing to "Down-the-Street" If you're a 500 Ac.-Guy...Using 40 GWA in most of Your Applns....???Doing 10-12 Applns-Season like on Apples....Using RidgeRunner.... You will go thru apprx 540 ga.RidgeRunner @ the 1 Qt-100-Rate.

Real Early in the Season, hopefully you're using 15 - 25 GWA...?? Ask Dee about Pallet-Quan-Discounts.... Impressive. And....All of these....**RidgeRunner--Indy--InSpray-90**....all come in Totes as well.....Nice Discounts.

*****The USDA-Chief-Economist-Office** is saying the SoyBean Acres in 2018 will be equal to Corn...??? Both like over 90Million-Acres.... ?? **Hey**....That reminds me.... I have Guys that do a bunch of RowCrops...Using a bunch of Glyphosate.....???Tellin me that the **Indicate 5** does way better on Hard-to-Kill-R.Up-Resistant-Weed-Targets when in the Tank-Mix with Glyphosate, way better than any other Surfactant-Adjuvant choices.

All the Bestr

And Then Also

"Two things that every American should study and learn and know how to use, are not taught in the Schools todaythe Bible & Guns."
