Fruit Ridge Notes - Wednesday - March 28 - 2018

Happy Holy-Week Wednesday to All !!

******This is Huge !!! Thank You** so Much for the **Reminder** All of You Guys Planting or getting ready to Plant Trees !!! We have a Crew of Smart Money Guys getting VitaZyme and InVigorate and DiKaP all Mixed Together in a 2-3-4% vvSolution....In a Backpack or in a Dip-TankFor New-Tree-Roots to be Sprayed or Dipped!!

This is Huge..... It makes such a huge difference....Really very impressive.

One SmartMoneyGuy thinks it costs approx 1 Cent per Tree...??? Maybe what he is telling me is that the cost is insignificant...???

******The Big Ridge Area "Spring Spray Meeting"**..... with all the Speakers from **M.S.U**.... will be at Patrick Goodfellows Storage again.... Same place as last year...

....on the North side of 12 Mile Rd...just 1/3 Mile west of M-37..... **Thursday--April 19....4pm to 6pm.**

******This coming Monday--April 2nd**--5pm--is the Final-Call for your Guesstimate for the **"1st-Scab-Infection-2018-Date-Contest"** Tell us the Date and if the beginning of the Infection is going to occur in A.M. or P.M.....the **"1st MSU-Amy-Certified-AppleScab Infection"** at the Ridge--Sparta Station.

Just simply "Reply-All" on this EMail so the Gals here also get Ccd....

******In Visiting** with some of you Guys that are doing the Redox Nutrition Strategy..... I think it's pretty interesting that the DiKaP can be a pretty useful tool for many things, because it has in it's composition a hard-working-dose of Salicylic Acid that you're only paying a few dollars for. It has some other very powerful 'Proprietary Components' in its make-up that deliver a significant list of very favorable Plant-Health results.

DiKaP is a ReActed Plant Nutrient high in Potassium and Phosphorus & Carbons... and is a Key Strategy-Component for the Redox Guys that are no longer doing the old traditional-very-pricey-granular-non-performing methods of the past. You Guys that attended "Redox University" have this dialed-in.

www.reisters.net

I know some of Ya's that are getting 8-16 oz-Ac.DiKaP into the Tank-Mix each time you use CS2005... the Rate depending on TreeRowVolume.

...Again The 1st Step in the [Redox-Success-Performance-Strategy](#) is to ***Not-Waste-Any-More-Input-Dollar\$-on-Old-Failing-Methodology.***

*****Yup...I agree CapToZeb** is still the best AppleScabiCide....

And I can't think of any good reason why you can't start out with that....?? **But....**

I actually like the 1 Qt.CS2005 + 1 Qt.FormulaII-SW + 1 Qt.K-Phite-per-Acre quite a bit better....at least for the first 2-3-4 Alt.Center-Apps...??

...Why...??? Because when I look at the Dozens of Diseases controlled in the Dozens of different Crops by the Phites and by the Coppers.... and then I consider this *absolute* best Top-Performing-Copper-**005**, and the 2 *absolute* best Top-Performing Phites....??? **...Delivering Bactericides and Fungicides and Nutrition and BioStimulants....??** I'm really getting a lot of action with my *Qt.Qt.Qt*.... and then compare with CapToZeb where I get just a Fungicide....Only a Fungicide.... Nothin for FireBlight...Next-to-Nothin for Mildew...

I do plenty of CapToZeb in our Program in Week #3 and there-after.... and I still Max-Out the EBDC-Season-Limit...

I love CapToZeb why....???? Low-Cost-Very-Effective-ScabiCide...

And Also....Remember....Later on....If you get caught with Secondary...??? Captan is the only product I can recommend for ScabBurnOutControl because of all the other Diseases it does, and the LowCost.

We absolutely avoid all of those \$40-\$50-\$60-per-Acre RipOffProducts that almost never actually BurnOut SecondaryScab without multiple Applns....huge Costs.

*****Some Guys** saying they're not receiving these FRNotes, but their correct EMail address is being used... So.... That almost always means that they're "Settings" wont allow anything with 50 Recipients or more in the "Inbox"...???? ...or something along those lines....???? This FRNotes goes out to nearly 900 Addresses....??? But I think in Groups of less than 100.

Warmest Regards ***He Is Risen Indeed***r
