36°F with Misting Rain-Snow-Mix Here

....As we approach Mid-April, I'm almost starting to feel bad for my Golfer Pals Almost.... Not quite yet.

******Question about Account Set-Up ... Yes--Qwik-Easy....**Go to **Reisters.Net** and Clic on Forms.... Takes You to ****New Customer Form** and also ****Michigan Tax-Exempt Form....**

Very simple.... Just complete those as best you can and send to DeeTeam... or call them 616-887-9933They will get you Dialed-In and ready to rock-n-roll....

******Q & A..... Yes ...I also get those "Flyers"** on Email / Internet.... From big 'WholeSale-Spray-Product-Distribution-Guys' and yes I did note that some of their \$\$Quotes\$\$ are pretty doggone close-InLine-Competitive. The thing is... Ya gotta check on the cost of the Shipping....and what the "Minimum-Ship-Quantity" might be...???and I also notice that a big %%% of those Products are for only the Grain-Crop-Guys.... Corn---SoyBeans--Etc...

....And any of us in Specialty-Crops seriously need to be sure that the Label says we can use those on what we are doing... There are actually a bunch of Products that are exactly the same but maybe with additional Surfactants...or maybe no Surfactants..... Some that are labeled for Ornamentals and Floraculture only ...some for 'Right-of-Ways' and ditch-banks and around structures Some may be labeled fore Apples but only "Non-Bearing" Just be very careful about what you are really getting..... Or better still..... Just tell Deanna and her DeeTeam what you need, and we'll GittRDunn.

******Yes....Grape Guys start right out Early** with a serious Insecticide in their Tank-Mix at BudSwell-1st-Crack-Green....They are Targeting GrapeFleaBeetle - ClimbingCutWorms - LecaniumScale - GrapeMealyBug.

I see the MSU-E-154 recommends some very serious HiPower"Tools" for these Pests....Pg.178..... My faves3.2oz.BaythroidXL or 10 oz.Hero.

******Important Meetings** for **Apple** Guys and **Blues** Boys and Sweet **Cherry** Faves...

Remember... **'It's All About the Cuticle'** This is relatively new discovery out of Oregon State Univ....Owned now by 'Cultiva Group' ... Owner Sean Musser from Wenatchee is comin to town to bring us up to speed on the latest Trial-Data....

Lots of Research goin on with this stuff.... But there is already a big list of PNW Growers very profitably using it.... My PNW Pals are saying we really need to be seriously lookn at this stuff called "Parka" ...the Sure-Seal-Technology out of Oregon State.

Apple Guys---Meet with Us---Tuesday-Tomorrow-10th--at Swann Inn--AlpineAve--

...Your choice of Times....

....Call Nancy or reply on this with your Time-Choice....

**7.30am - Breakfast

**Noon - Lunch

**5pm - Dinner

....**or**Swan Inn

**8.15am Wednesday immediately following the MSU-7am-Weekly Updates-Meeting with Amy and Phil....

Then ...for Sweet Cherry Guys
