Fruit Ridge Notes  
from Ron Reister  
C.C.A.

## Fruit Ridge Notes - Friday - May 4th – 2018

**Greetings .... Some Bloom** in Sweets ....Down in the South-West Corner Yesterday ....

Some very much-appreciated Rains around here.... But Some Pals in that SW-Corner got over 3 Inches way to fast YesterdayAM...

**Our Prayers** worked to keep that Wind down a bit ...Pretty Nice.

\*\*\*\***As the Fed** squeezes harder & harder on some of these favorite Broad-Spectrum Insecticides, which also makes the Processors all on edge....???? Not Good.

But we really need to stay ahead of the **Woolies**. Full Rate Chlorpyrifos and Full Rate AsanaXL[or generic Zyrate] does the most for the Lea\$.  
the Lea\$.

\*\*\*\***Redox Questions....**Foliar--Timing=OpenCluster-PrePink-EarlyPink---Yes we are doin 1-2 Lb.-Ac."RxSupreme" ....which Analytically is a **2-14-15+B+Cu+Fe+Mn+Mo+Zn**

Also doin the 1 Pt-Ac. VitaZyme BioStimulant.....

\*\*\*\***For Redox-Ground-Applied...with Herbicides....** My Guys that have been doing the Redox Deal for a few Years are telling me.... Per-Treated-Acre---Into the Strip....

So.... Actually treating about 1/3 of the Orchard Floor.... They're doing ....

**3 Qts-PeneCal ++ 10 oz.VitaZyme ++ 2 Qts.Phoenix ++ 3Lbs.PotassiumCarbonate**

\*\*\*\***Q & A...**

--I think you are correct. I see no other 'Phites' Labeled as a "Bactericide" ....K-Phite is the only one I see.

--The savings on the Black-Label-28-25....?? ...apprx 25%

--It appears that the Permethrin being pulled from MI. is the Ambush 25W only....???

They have that one trimmed down to like 6 or 7 States now...??

But several great Permethrins like PermUp3.2EC and some others named simply Permethrin 3.2EC are labeled for use here...MI.

--Yes, in the E-154 @ Pink it does say PermUp3.2EC use rate = 6oz....But the Label says 10 oz. We're doin 10 oz.=Cost less that \$4

\*\*\***When a Product** being considered for the Tank-Mix only cost \$2.50 - \$3.50 - \$5 - \$6 per-Acre.....??? Thats a great time to consider "Maxing-Out-the-Rate" ..... And when a Product is runnin \$38 - \$45 - \$55 - \$60 per-acre...??? Thats a really good time to look at Tank-Mixing some older-Chemistries that still have Butt-Kickn-Qualities....??? And spend about 1/3 of those crazy ones.

**Our Friend Dan Kobers Funeral 11am Today....**

Praying Safety and Blessings on Your WeekEnd..... r
