Fruit Ridge Notes - Monday - May 7 - 2018

Happy Monday..... Gotta be a Happy OneWith this kinda Weather...???

It sounds like Everyone is out ahead of their Scabby-Infiltrators.... Even the 700-Ac.Guys.... Actually Pretty Comfy !!!!
And....What a beautiful day we have for Getting another Alt.-Center on.....

******Our Tank-Mixes at PreBloom and also at PostBloom-Petal-Fall** Can get kinda crowded...???? Lots of stuff we need to get Covered... Including important Nutrients and PGRs... Big-Doses Insecticides-Miticides-etc....

So.... When looking at our Product Choices, they can all fit in just fine... and they really work Synergistically..... They get along just fine.... And None of them 'cancel-each-other-out' ...as some guys have been heard saying.... pretty funny.

And you dont have to be a chemist Lets talk.... Its way less money--- more effective--Easy.

******Honey Crisp Indeed Features** a very High-Resistance to AppleScab.... Very Cool.

They are a Variety to be Pampered in so many significant and most times costly ways. But I truly believe you Guys that were appreciating over \$1400-per-Bin with 23-Units-Bin-Pack-Outs 8-9 Months Back....???? Can do that same thing again this Fall. Most of you Guys used the 1Lb - 2Lb-Ac.RxSupreme right now=PrePink-Pink.....and also then MainStaySI Calcium starting early...Late-Bloom-Petal-Fall.

.....You guys maybe just wondering about Redox...not doin it yet...?? ...Ask me about how to "Stop-the-Bleeding" ...and get goin with Redox.

******John Deere Financing ...??? Indeed !!!!** Please simply go to **Reisters.Net** and click on **John Deere Financing**.... Please....Really Easy.

******Pretty Interesting Side X Side Comparisons Results** when a huge Grower Associate did **3** Other very strict Protocols-Nutritional-Approaches in a **4**-part-Trial with our Redox Program.

All the other Programs, which included the old traditional conventional-N-P-K-Granular-Dry-Blended-Bulk-Spreader type methodology were *Higher-Input-Costs* than the Redox. The huge Winner when Analyzing Results was of course Redox.... Hands Down. Some of the other much higher-cost-programs performed miserably ugly. One of those "Others" was nearly 2X the \$\$\$Co\$t-Acre of our Redox Program.

There really truly is No Other Product Line with the Reliable Performance like Redox.... Nuthin..... They got Nuthin.....

Ask me about how to 'Stop-the-Bleeding' ...and get goin with a Redox Approach.

******We're Keeping in Mind the SAver ...** on those several Apple Varieties susceptible to F.Blight.... the Salicylic Acid [SA] in our Inert Ingredients is really huge for overall Tree-Health---

Enabling and revving-up Natural-Plant-Self-Defense-Systems.... and SAver is really a great Nutrition The Inerts are just a Low-Cost Bonus.

Hoping by now Ya'll remember the \$50++Acre++ SA Product mentioned in E-154 during Bloom for help against F.Blight on Apples..... I dont want to keep mentioning the Product As the Manufr-Rep is a Good Guy...Pal of mine. Pls just get Yourself some SAver....Get it on Late-Pink--Early-Bloom....\$12-Ac

******Primary-Targets for these next few**

Days....Scab++Mildew++SJScale++PlantBugs++Rosies++Woolies... and some *Secondary* Targets that will get their lights knocked out by your proper-Controls of the Primary Targets....are:

LeafRollers++OFM++FireBlight++STLM Even tho they're vulnerable right now, we are not concerned with ERMites ...as it is so really Cheap-Easy to Knock-them-Out at Petal-Fall-1st-Cover-2nd-Cover at a Really really Low-Cost.

******Yes We Most Certainly Can Tank-Mix All** of these Fave-Products..... Because whenever we consider some of our Mix to maybe be the least bit Tricky...??? We start out the Tank-Mix with Indicate 5..... 1 Pint-per-100-Gal-Tank-Mix.

Alsowe never dump into our Tank any Low-Quality-Junk-Products.....

Yes ...It was Indeed my Birthday Yesterday..... Another one..... Thank You so Much for all of the Well-wishes....

I was Born when the *Dead Sea* was only just a little bit sick....

AndI'm Feelin FineJust Keepn-On Helpn my

DeeTeam==*Deanna & Matt & Nancy & Alicia* ... Kick Some Butt.....

Warmest Regardsr
