Fruit Ridge Notes - Thrs-II - May 10 - 2018

Greetings *Nothin like a Hail-Storm to move Communications-Levels Up Acupla Notches....*

******We Can Indeed** include our PreBloom-Pink-Spray Efforts with any-all immediate measures we are taking in reaction to the Hail-Trauma.

Also consider a 4 - 6 oz.rate *Kudos 27.5WDG* ...to slow-down the Vegetative Growth....or Apogee if you already have it on the Shelf....??
....But ...

....When it's time to ReStock the Shelf, be sure to check with Deanna about Cost-per-Lb.Kudos 27.5WDG....\$ave \$ome U\$Dollar\$.

******Some Guys Familiar** with the product from Agrinos called "**B-Sure**" remind me that it really helps the Tree with any-all types of stress.... Like Trauma-Hail-Stress

You remember me calling it a derivative of 'Shrimp-Brains' at our February Meetings... I really like the Agrinos Products ...a lot. B-Sure.... 1 Qt.-Ac.---Tank-Mixes with everything we are doin.... Less than \$11-Ac.

******Where You Did Your VitaZyme** in your PreBloom-Pink-Spray, your Tree really appreciates you Gearing it up for the Stress-Trauma-Crap it just had to endure.

And **No**...I don't think multiple Stress-Relievers is to much. When products are totally different ...They will indeed help immensely in their own mode-of-action-approach.

There are several things we should be doing in our Overall Program...to include several or All of the Low-Cost-Extremely-Effective-Life & Health-Enhancing-Compounds

Look at this...Like if my Friend is really Down-Out-Stressed-Depressed-Physically-Mentally-Traumatized, I will want to *Share acupla Scriptural verses.... and also *Buy him a Beer and also *Buy him a nice Lunch So *3* totally different Modes-of-Action....All virtually at the same time. They all help a lot in various ways.

Here Below--Some Very Low-Cost-Important-Plant-Health-Enhancing-Stimulating Products that we really like.....

- ~VitaZyme and OrganicLabel VitaZyme 1 Pt-Ac
- ~B-Sure 1 Qt-Ac
- ~DiKaP 1 - 2 lb.-Ac
- ~RxSupreme 1 - 3 Lb.
- ~SizerXL 2-3 Qt-Ac... 4 Qt. on Full-Production
- Trees
- ~SAver 1-2 Pt-Ac
- ~MainStay S.I.Calcium 1 Qt-Ac
- ~Regalia 1 Qt.-Ac

******Lookn More at F.Blight....Some of the Ultra-High-Risk and the Very-High-Risk Apple Varieties.....**

GingerGold-- Gala-- TaylorRome-- IdaRed-- Fuji-- Braeburn-- CrabApple Pollinators-- PinkLady-- LawRome-- PaulaRed-- JonaGold-- Monroe-- Greening.....

When taking a really thorough look around....Most all of the newer Apple Blocks are at some level of F.Blight Risk when considering how a storm like last nights can carry Inoculum.
