## Fruit Ridge Notes - Friday - June 8 - 2018

Hello and Happy TGIF to All Ya's.....

The Big ""Triple Crown"" Event Number 3 is  
Tomorrow.... The 'Belmont Stakes' ... I think Post-Time is  
about 6.30pm...?? .... on NBC...

**Kinda Cloudy & 65°F Here....**

\*\*\*\***Q&A-Yes...Gem is a Strobie...But No...** There's no 'S.I.' in it....

Cherry Guys use Gem at 3.8 oz.-Ac.... **Flint** is the **same A.I.** ...that  
Apple Guys use at 2.5 oz.-Ac.

If I am doin Cherries, I'm seriously looking at 3.8oz-Gem=\$26----Tank-  
Mix with Full-Rate-4 oz.Tilt/Propiconazole[S.I.]=\$2.25 .... Or

**S.I.Teb45DF-Full-Rate-8oz-Ac=\$6 ...**

**It's \$45** for LunaSensation....Works Great ..... **\$40** for Pristine...Not so  
Hot... Merivon actually works great...Rated "E" on most  
problems....But **\$42-Ac.**

\*\*\*\***With the New Labeling** I see coming on for Cherry ...and the new  
'Flint-Extra' stuff being the same exact stuff as Gem....and Both made by  
the same "Bayer" Manufacturer Folks...??? I'm thinkn they are gonna  
just phase out the 'Gem' maybe .....??

\*\*\*\***Grape Guys Applying a Bunch of "Phites"** right now for  
Disease Control....K-Phite @ 3-4 Pint.... or the Nutritional....FormulaII-  
SW.... Actually the most Impressive-Comprehensive-Low-Cost-Top-  
Efficiency-Program I have currently seen used in Grapes ...???

==This Guy is doin 40 GWA...

Uses 1 pint-100g.Indicate5 plus 4 oz.Ac.Vintre+

+3 Lb.EBDC+

+1 Qt.SAver+

+1 Lb.DiKaP+

+8oz.BoronXtra+

+1 [Qt. MainStay.S.I.Ca](#)

+1 Qt.K-Phite+

+1 Qt.FormulaII-SW+

+4oz.Teb45DF+

+1 Lb.Agrinos 5-0-0

.....Lots of Microbial-Nutrition in this Tank...Lots of N-P-K-  
Replacement ... Lots of SAR Activity .... Lots of Fruit-Set-Help....  
Lots of SystemicActivity goin in.... There's actually 5 or 6 Disease  
Control Components ... I have some Guys that have no Bee's around  
that are also doing Baythroid and Imidacloprid 4F[Provoke]...in the  
same Tank...

You likely figured out that the guys doing this above Tank-Mix  
are **not** doing the traditional-conventional old granular-dry-  
blended-N-P-K-type Bulk-Spreader Fertilizers any longer.... They  
are into the HiTech-HiCarbon-Hi-Microbial-Intense Nutrient-  
Management Program.....and savin a ton of money.

\*\*\***Did I mention...???** ... **in a previous FRNotes** about the  
**Blues Grower** Friend that had a sit-down with his BNR-Rep to go  
over the complete BNR-Recommended Granular-N-P-K-Plus-  
Micro's-Bulk-Spread-Program....and the *Bottom-Line-Tax-Title-  
Dealer-Prep-Total-Out-the-Door-Per-Acre-Cost* was \$1000-per-  
Acre...???!!!

He's doing the Redox HiTech Gig now for *30 Cents-on-a-  
Dollar*...

\*\*\***Tracite-Triple-20.... Yes...** Indeed ...Soluble 20-20-20 with  
the Micros.... A couple of Guys really really wanted some ....so  
Deanna sourced some good stuff at a very Low-Cost .... Check with  
Deanna if you're interested...

***All the Best to You....Happy Weekend .....r***
