Fruit Ridge Notes - Monday - June 11 - 2018

It's Monday... Here we Go

Amy says Scab is still On-Going ... Most Weather Stations had an Infection with Sat.AM Rains ...with the additional Wetting Saturday later If you're very far North you may have escaped...?? The general 'DD' consensus is that all Spores are Mature now.... A good Day-Time-Rain will hopefully discharge the last ones....??

And if we get really really Blessed...??? The next Day-Time-Rain will not catch any Spores, and Amy can officially say we're done with Primary....??? That would be really great....Keepin my fingers crossed.

******Yes I said you cannot ever use up your Legal-Season-Limit of Captan 8oWSG.** OK... You'd have to do Full-Rate of 5 Lbs.-Acre Eight [8] Times....

Your Legal Limit is 40 lbs.-Yr-8oWDG

Oh.... and you should be done with your EBDC-Apps about now

**77 Da.P.H.I..... **Captan??=o Da.P.H.I.

******Lots & Lots of FormulaII-SW and K-Phite** going out the door.... Peach Guys and Veggie Growers also using for all Bacterial Diseases.... the F-II-SW has the SeaWeed and Zn.....rollin with the Nutritional Label. I see some Peach Guys using 2-3 Pints of Each.... Most of the Veggie Guys are at 1 Qt-Each with 12-16 oz.CS2005.

And also on the Apples... We always can use our HiTech Phites Tank-Mixed with "005" and Captan anytime we want....

******All of Those Inter-Planted Stone Fruits and Grapes and Pears** in our one Apple Trial Block where the **Trial Protocol** is geared to just only Apples...??? All those Nectarines and Cots and Peaches and Prunes and Plums and Asian Pears and Bosc and Bartletts....Sweet and Tart Cherries....White Grapes and Concord Grapes.....???

Everything All looks to be very happy with the Concoctions of Extreme-Low-Cost-Extreme-High-Efficacy Apple-Pesticide-&-Nutrition-Products we have been feeding them.... Lots of "005"... PermUp...Teb45 ...AgriMek... Phoenix ... K-Phite ...F-II-SW ...CapToZeb ... Imidacloprid ... LambdaCy[Warrior] ... Diazinon... The "'Redox-Technology"' Products Lots of very Cost-Effective Tank-Mix-Partners....

It is starting to become very obvious that the Apple Trees are really crowding those 18 Yr.Old InterPlants.... I'd like to plant some more....like wherever a Apple-Tree has went missing?? I had a few that tipped over from heavy winds. Do any of you have any new Stone Fruit Trees in the Cooler that you dont know what to do with....?? If not, I'd like to tag along on your Tree-Order for next Spring.....???

**** **"Confound It All Anyhow"** Thats what my Dad always would say when perplexed about something Like that's probably what he would say now if looking at how many Apple Fruitlets appear to still be really hangin on really tight...??After already hitting them twice pretty hard with Thinners...??? It sure seems like the wind has been Workn OverTime Against us....

**** **Aprx 3 Weeks Out** It'll be about the time for the 2nd shot of Parka

Thanks Have a Blessed Weekr

~~~ **Saw a Photo** ...really old Photo, of Ronnie Reagan shaking hands with the young Donald Trump .....

Reagan said of the greeting.... **"For the life of me, I'll never know how to explain it, but when I met that young man, I felt like I was the one shaking hands with a President."**
