**\*\*\*Keeping my Fingers Crossed ....** Only **8 Days left** in July, and All Aspects of Everything are lookin really Squeaky-Clean in our 10-Ac.Apple-Trial-Blocks.

We have been doing several \*Low-Cost-HiTec-Microbial-Active-Biologicals.... \*Quite a bit of "005" .... \*Our Fave-Phites Tank-Mixed with our \*Fave-Calciums, **(which is supposed to be a NoNo)** .... Some new-Hi-Tec-Calcium .... and Ecklonia Maxima named "KelPak" .... Lots of other cool stuff,

We have been staying on Track with the Redox-Program.... doing zero [-0-] traditional-conventional-stuff.... All is looking superb.

We've been doing a bunch of old Nukes.... \$1.50-Ac ...\$2-Ac. stuff... \$8.22-Ac-Diazinon.... \$3.85-Ac.Perm-Up ...That kinda stuff.

Sometimes there are 8-9 Products in the Tank-Mix...Many Systemics & Biologicals & Microbials ... Delivering to the Crop 'N'...Ca...3 Fungicides... 'P' and 'K' ...Zn ...SeaWeed ... 2 Insecticides and a Miticide .... BioStimulants .... All working synergistically .... and very efficiently.

We have been doing 1 Full-Cover [2-Alt-Centers] every 2 weeks since mid-June...end of Primary.... During Primary-Scab-Season we were doing 1 full-Cover [2-alt-Centers] Every-Week.

Have a Great Week ....r
