Fruit Ridge Notes - Saturday - July 28 - 2018

Warmest Greetings

Wow !!! ...Just Wow ... And Thank You All so Much for Joining in the Fruit Ridge Fest Event....

Great Fellowship.... Great Food and Great Music and Superb Libations, Most of which were Michigan Brewed Some Very Cool Classic Cars - Tractors - Pick-Up-Trucks - MotorCycles along with some Mouth-Watering New **John Deere Equipment and Chevy 4X4 and More**

It was perfect Temp....Nobody was Overheating ...not even this Ol FatMan

Keep an Eye on the Website "**Reisters.Net**" to see the latest Photos of the Event !!!

******Alicandros "Wayne County Fruit Grower Tour"** This next **Wednesday-Aug.1st** Starts at 9.30am--at "Tree Crisp Orchards" 11580 Ridge Rd - Wolcott

You Know.... That Tour ends up with a Huge Party "Clam-Bake-BBQ" Gig on the shore of Lake Ontario..... Big BonFire ... popular Libations.... Music...Very Cool.

******Q & A ... Yup.... Leverage 360SE** is a Pre-Mix-Combo of Baythroid & Imidaclopridbut Kinda Low Rates of Each I really like both Components.

I really like the PreMixes as you can tell from some of the "8-9-10-Product-Tank-Mixes I discuss. Some of my Pals that I refer to as "Smart-Money" have been doing this for 20-30 Years now... And it's especially fun when one of these 'Store-Bought' PreMixes comes along at an actual Cost-Saving Sell-Price !!!

******It Really Gets me Warm-Fuzzies....** when **Alicandro** talks about Fire-Blight Control in Nurseries and in Hi-Dollar-Non-Bearing-Apples and he always mentions **CS2005** as the First-Choice ...of all the "Low-A.I."-Coppers ... Always mentions **005** 1st. And that truly is the only Copper you ever need.

Jeff suggest one of the SAR type Products.... Like **SAver** ...into that Tank-Mix also... And remember.... a clean "Super-Phite" will also do that. I like 1 Pint SAver and 1 Qt.FormulaII-SW [or K-Phite] with the "**005**"

That Combo is radically Systemic.... Really works extremely well on all Bacterial and Fungal pathogens.

*****In the Hot-Dry** the Secondary Scab pathogen struggles just to sustain itself.... but straight-up Hot&Dry won't stop Scab by itself. We really need to stay on top of it as Cooler Temps and some Showers return. Stay with the 5Lb-Ac-Captan80WDG.

*****You Know.... VoliamFlexi is rated 'E'** on OBLRsand the Nukes like MustangMaxx and Warrior are rated 'G' ... and You Know that EndigoZC is a PreMix of those.... and for some reason way lots Cheaper than the V-Flexi by itself.... Hi-Rate 6 oz-Endigo==\$9 - \$10 ...?? HiRate V-Flexi==\$44....??? Kinda Nuts.... Endigo--**35** Da.PHI 24 Hr.REI

*****Pal Jeff Alicandro AgreesStay away from the Glyphosates** in the Orchards from here on out.

You've heard me accuse the generic and original RoundUp products for abuse to our Trees and BluesBushes.... As DirtCheap as it is, and as tight as I am, I still very Highly **Un**Recommend any Glyphosates in your Orchard or Blueberry plantation....ever.

*****CA-Lime... Hmmm...**Not positively sure yet on the Price....sounds like same as last Year except for the Freight..... Sounds like **Strathmore Ladders** and **PicknBuckets** are also same as last year

Happy Weekendr
