## Fruit Ridge Notes - Thursday - August 9 - 2018

### Greetings from Fruit Ridge Avenue....

OK... For here in the Ridge Area.... We really need another 4/10ths-Inch.... Today, Tomorrow - Saturday and Sunday.... Each Day..... Seriously.

Dear Awesome God...Thank You in advance.... 🙏👍

\*\*\*\***Ladders....Yes Indeed ... We Do** have a good selection....

"Strathmore-Super-Duty" ...Considered by nearly all Fruit Growers to be the best Aluminum Ladder on the Market. And priced very reasonably..... comparatively.

....and **PicknBuckets** ....the Very Cool Kind.... LightWeight....Low-Cost.

And the Very Really Cool kind imported from New Zealand that cost a lot .... Radically Extreme Quality....\$140

\*\*\*\***Sun-Scald-Burn-Damage-Issues....???** We have some very excellent Options.... **Consider Parka... "It all goes back to the Cuticle."**

I highly **UnRecommend** the 'Clay' stuff ... and the Carnuba-Wax options.... Pretty ugly ....Ugly Messy....

....and some of the Euro-Markets wont take the Carnuba if you Export...???

\*\*\*\***I was Visiting with Paul Wafler** out there last week at the Wayne County N.Y. Tour. They sure do have a bunch of cool stuff goin on. I don't know if I have another Apple-Grower-Client anywhere that goes thru more CS2005 than they do. Amazing. Lots of Apps. Lots of "005".... Lots of Disease-Free impeccably Clean Fruit. That is a very cool Operation. I do have some Blueberry Guys that go thru a bunch of '005"' ....One guy does 10 pallets-year-at least..... Uses in every Appln.

Most all of the serious "005" Users are making sure it gets into the Tank for "Pre-Harvest" .... all Crops except Peaches..... and Hops ... where there's a PHI-Issue... 21 Da and 14 Da.

Other than the Peaches and Hops, I'm almost sure the other Crops are all 0 Da.PHI.... ?? I'll check again...but I know a bunch of the Veggie Guys use it as a PreHarvest-Tool....Because it prevents the 'Molds' thru-out the Harvest-Packing-Shipping-Retail Store Shelving....Etc.

**\*\*\*\*Some of the Peaches in our 10-Ac-Apple-Trial-Block** are getting ripe. And the Trees are gettn really POd... Apple Trees are really crowding them out....and the Peaches are really old....Like 18 Yrs old...?? And they have only ever had Tank-Mixes applied to them that were designed for Apple-Trials..... So.... they're POd. Plus we have not been pruning them as needed....because my 'Cooperator' on the Block has his guys come thru to prune the Apples, and they always go right on by the Peaches and the other StoneFruits.

If any of You are ordering any Peaches or Nectarines or Cots or Plums or Sweet Cherries for Spring Planting...??? ...Any-All Varieties??? I'd like to get in on your Order for like up to 40 Trees total or the various Kinds and Varieties.

**\*\*\*\*OBLRs.... Jeff Alicandro says if we didnt kill-m-all a month ago,...we're screwed.**

But I'd be doing full-6 oz-Rate-EndigoZC - **\$9** ...It contains VoliamFlexi... the VFlex is rated "E"for OBLRs ...and EndigoZC is rated "G" or "E" on lots of the Targets at 6th-7th-8th Cover Timing.... With the 35 Da.PHI, we can still do Endigo on just about all except Gingers--Paulas--and some earlier Galas...??

Another OBLR-Option.... 15 oz.Exirel 10SE - **\$61-Ac.**

**All the Best ....r**
