Fruit Ridge Notes - Friday - September 7 - 2018

Another Friday Good Grief

Some Guys have dumped Way to Much Rain our of their Gauges...
Now Praying for just a Wee-Bit of Dust.....
Wow....Apples are really Sizing.

C.A.Lime Deliveries are well under-way....

...and **Welcome Back...** To some Folks that were 'talked-out-of-it'
...???Not using Lime for a couple of years, but then ran into some
Keeping-Quality-Issues???
The Real-Deal-Experts that understand the Science involved with that
Hydrated Lime being in that C.A.Room tell us to definitely *not skip the
Lime.*

***Blues Guys are Gearing up for the Post-Harvest-

Applns..... Some Guys 100 miles South have finished theirs already.
I see where MSU recommends Multiple-Applns where the Canker has
been bad....or where your Machine got a bit to rough on the Canes. They
say go right after Harvest and then every 25 Days.... on through Leaf-
Drop--Fall.
These Apps are also very critical for next Years Crop-Set....for the Fruit-
Bud-Health & Strength.

Be sure to look at the Products you already have on your
shelf.... Many can be very efficient as 'Post-Harvest' Tank-Mix-Partners.
The Main Focus is the Nutrition for next-Years-Fruit-Buds....and the
Disease-Controls & Prevention.

I also really like how some of Ya's are throwing in some of those Xtreme-
Low-Cost-Insecticide-**Nukes**.... Why ...???

Do the "Advanced-Search" in Agrian for Blueberry Bud MiteThere's a
bunch of Nukes listed there \$3 - \$4 - \$5 - per-Acre....

And any SWDs & BluesMaggot & Japs & CankerWorms & OBLRs &
TussockMoth & Whatever else is hanging around maybe just finishing up
their reproductive cycles, I want to annihilate all of those if I
can..... Especially when I can do it so Cheap.

*****One Smart-Money-Gala-Grower** just mentioned to me that he is
preparing to make another '**Parka**' application He said Parka has
very seriously eliminated the 'Cracking-Splitting' he used to get in his
Gala.....some years pretty bad. He said with these Rains he's not taking
any chances. He is using 1 ga.Parka in 80 GWA....

We're on the Web!

See us at:

www.reisters.net

Most of his Trees are getting excellent coverage with only 45 GWA.... He's spending about \$34-per-Ac-Appln..... and getting a whole bunch more U.S.Extra Fancys.

******BMSB Brown Marmorated Stinkers** Products

Rated **"E"** in MSU-E-154 with Da.PHI

Baythroid [7 Da] ...Lannate [14 Da.] ...Danitol [14 Da.] ... Actara [14 Da.] LambdaCy[Warrior-21 Da.] ...Leverage360[7 Da] ... and the Imidacloprids[7 Da] are Rated **"G"**

My Choice = Full-Rates Lambda [5.12 oz]and 3.2 oz.

Imidacloprid4F [Nuprid-Provoke-Alias4F-Montana-Machco4F...any 4 Lb.A.I.Imidacloprid] ...for **\$4** Total-Cost-per-Acre.

I would like Leverage if it was 1/2 the Price being charged.... and if it packed a bigger punch of the Baythroid and Imidacloprid A.I.s.... it's really kinda low-potency.

Baythroid.... 2.8 oz-Ac...Love it. \$4.25

******Jill & Joe Brown**Really need some Help for Picking They are on 8 Mile/Roosevelt - south sideJust west of Phil Brown Welding..... Their People finished up with the Blues and took off. They have Housing for 12 People. Ph-616-899-2215

Have a Nice Weekend.....r
