Fruit Ridge Notes - II - Tuesday - September 11th - 2018 ... 9-11

September 11 - 2001 Exactly 17 Years ago Today ...It was on a Tuesday ...

A Horrific Day in our Nations History.....

We still fervently pray for Gods Blessings of Peace & Comfort & Wellness on the 100s of Thousands of Americans so devastated....affected in so many ways.... by this hateful cowardly act of murder committed by the 19 demented Cowards of Radical-Terrorists-Islam.

... Nearly 3000 Americans lost their lives that day. **We Will Never Forget.**

******Q & A..... Certainly. Belay 2.13SCAnother Neonicotinoid**

.... 7 Da.PHI----12 Hr.REI ...Yeah....👍....**Like It.**

Ratings.....by MSU-E-154-Pg.116

Rated "**E**" on these: GreenAphid, PlumCurc, Rosies, STLTM, WALH....

Rated "**G**" on these: A.Maggot, BMSB, C.Moth, OFM, SJS,

Use 6 oz-Ac....for about \$13.00 ...Locally Systemic.

Allowed Only 2 Apps of 6 oz. per-Season.

This A.I."Clothianidin" is not really common...It is in some other products but this is the only one I see for Apples...

Also for use in Grapes, Pears, Peaches but oddly not for Nectarines or Cots or Cherries.

This specific molecular-tweek-Neonic seems to be a bit stronger than our Fave \$2.50-Ac-Imidacloprids....???

I'm thinkn ahead to 2019 about alternating this with the LowCost stuff...for 2 Applns.

So.... I am thinkn that Deanna should bring in more of this one next year.... unless they jack the cost up.

There are some other close-Neonic-Relatives that are 2-3-4 times more money-co\$t-per-acre.... 🗨

****** "Phosmet" Fave 'O.P.'**

Your *Imidan 70 WP*... Has indeed had some limited rhetoric of "Codling-Moth-Resistance" As far as I can remember, I don't work with anyone that has certified any of that Specific Resistance. But we do know that it is for certain an issue in certain isolated pockets.

******Jill** & Joe Brown say that they now have Harvest Helpers..... Very Cool.... Thanks so Much to Whoever assisted.
