Fruit Ridge Notes - Planning Ahead - Tuesday November 6 - Voting Day

Greetings Friends

Looking at Calendar....

Up at that NWMO&V Show That's the *North West Michigan Orchard & Vineyard Show* Convening at the Grand Traverse Resort -- That's at 100 Grand Traverse Resort Village Boulevard -- Acme, MI. 49690 -- January 15th & 16th -- That's a Tuesday - Wednesday.

Reisters Grower Services will of course be there with a Booth-Exhibiting ... and with some Manufacturer Representative Pals hangin out with usSharing the Latest & Greatest

And... The Thursday following that Wednesday is also the **"Redox University Day" Jan.17th** A Bunch of Ya's have already signed up for that... and another bunch of Ya's told me that you don't wanna miss that.

Important You should let the DeeTeam here know if you're planning on attending. Just "Reply All" to this FRNs with a quick Note....Who & How Many.

....Agenda Specifics & Details will be coming soon.

**** **I noticed in the agr.news from Jeff Alicandro** that some of his Guys use a big-expensive dose of the KaolinClay SolarProtectant product "Surround" in their Post-Harvest-App simply to check their Spray Coverage faults.... I really like that 'concept' ...and some Guys desperately need to check their Coverage... but that Surround makes such a huge mess, and is very pricey. If I am doing a project like that, I am using the Phoenix Ca.-Lime-Product at the 1 ga.-Ac-Rate. That Visual will tell me what I need to know about any sketchy Spray Coverage.

And I have Guys using Phoenix that have seriously stopped the old Liming Practices 6-7-8 yrs ago ...and they have perfect Soil pH.

Q&A....NoPhoenix is not a "Redox" ProductBut it coincides beautifully with the Redox Philosophy.

Our Redox-Experts really like what the Smart Money Guys are doing with PhoenixCa. OMRI-Listed.

Best Regards to All of You ... On This Mid-Terms-Election-Day.... May God Save This Nationr
