Fruit Ridge Notes - Wednesday - October 17 - 2018

Hello from 43°F-Breezy-Kent Citys West Side.....

Feelin exactly like Deer Huntin Season here.....
My m.Ph. says its 43°F here... and Conklin.... and in Traverse City and
3* Warmer in Anchorage Alaska @ 46°F ...

******I didn't Mention Forgot** that on Monday I dumped out almost
another 1 inch RainFall at Gooding..... from On-Off-Drizzle-Rain-Crap
over the WeekEnd.

******Q & A ... No....**

Thank you.... Excellent Point. No 'Cracking' that I could see in the Honey
Crisp from our West Branch Pal.... He had a beautiful crop on his older
Trees.

He also had some U.S.Extra Fancy Fuji and JonaGold.

The worst Cracking seems to be on heavier soils. The guys in the Sand-
Gravel...and Oceanna County Hoods dont have much at all.

I'm still checking for a 'Cracking-Report' with those "**Parka**" Guys and
some more of the Redox Guys that were doin the "**MainStay-S.I.Calcium**"
.... One Big-Honey-Grower doin lots of "S.I." says he thinks that is the
difference ...?? ... but Jury still out..... At this point the Soil Type seems
to the biggest thing...?? Pls call in or text me your findings.

******Please RememberOnly 3 Weeks** from this Coming Saturday

For those of you that havent been to this LCDSF Event before...??? We brag on the fantastic Menu and the Caterers and the Bar and All the Fun.... And always some great stuff to bid on too !!!

The Caterers are Moonland Catering ... 2 cool Couples Branden & Meggin and Matt & Brynn Brynn and Meggin are actually Lindas + my Nieces.... Lindas brother Alan Shepards Daughters. That Branden Dude is one of the Head-Guy-Lead-Chefs at Charlies Crab.

They do a very superb job for us at this Event.....and every time we have used them.

The LCDSF is a "501(c)-3 Non-Profit"so Tax Deductible Donation. If you simply want to Donate...?? That is also very wonderful. Thank You !!!

Nobody involved in this NonProfit takes a dime for all the time and resources they contribute to this Event.... or any other LCDSF activity. All is Donated.

*****Looking Over the Tops.....** of several Full-Bins of Red Delicious harvested from the 10-Ac-Trial-Block at Gooding

I could find an occassional Scabbie..... average of maybe 1-per-Bin-Top.... probably 1 out of 250 apples.

I think that is due to the fact that after the the 'First-Crack-Green' 4-Alt.Center-Applns-in 2 Weeksall at 1 Qt-Ac-"005" We only did the "005" 4 more Centers.... those at Bloom and 3rd Cover Timing ...and those at the lower Rate=1 Pt-Ac. In previous years we have done "005" in every Tank....13-14 Full-Covers.... and 0.00% Scabbies. This Season only 4 or 5 Covers. But I guess we can live wit the 0.004%.

Stay Warm..... r
