Fruit Ridge Notes - Thursday - August 20 - 2020

GreetingsAnother 20-2020... 😊

.....We get 4 more of these this Year 😊
It Tried to Sprinkle a bit earlier this AM....I guesstimate 1/277th of an Inch...😞...That's almost better than a Hot-Dry Wind...
WunderGround saying chance of Rain next Wedn-Thurs...and Saturday-29th.... But all 10 of 10 Days with plenty of SunShine...
The 10-Day-Forecast-Day-Time-Highs should Average about 85°F.....
The Early-Morning Lows should average around 61°F...
.....A Pal from *Bendon* Michigan had 46°F. Yesterday Morning... That's in Benzie County....Inland Township...

**** **Tomato Guys...** Yup...We're doing "'Parka"' Trials for determining if it will prevent some Cracking and SunScald--Etc...
I just hope this WuhanChina19 thing doesn't mess up the Harvest & Trial Protocol... 😞

**** **Blush 2X...** Yes...Use 1 Qt-Ac-50 GWA-Great Coverage... Another "Rule-of-Thumb" = 2 Qts-per-100-Ga.... This kinda fits all your TRV-Adjustments...??
Blush likes Slow-Drying... If you're doin any ReTain on Honeys, this Blush2X App is a Must-Do.
Also...Remember our Pals that are doing the 2-3 Lbs DiKaP for Color...and Nutrition... Very Big-Deal-Common-Protocol with the **G.S.Long** Guys in the PNW.
And....Of course I cannot really argue really hard with the Guys saying that we're gonna soon get those "Cool-Nights" and continue to get the SunShine, and Color shouldn't be a big Issue..??? 😞...Just remember wherever you do ReTain you're gonna get the "Drag".... 😞

**** **OK....So....Only one Guy** I know of for sure that still has a bit of **2ndary** that is still 'active' ...???...Alive...?? And I don't blame you if you really don't wanna put any more Captan out there. ...Some Varieties ...for some Guys...can tolerate *less* Captan than others.
So...We do not yet have *Cevya*, but I think I'd check with the BNRs to try and find enuf to do that Scabby-Area...??? I think it comes in **100 oz-**containers...4 per-case?? It's a liquid 'Suspension' product...

Use **5 oz-Ac...** You get 20 Acres out of 1 Jug. I would not cut that rate. 12-Hrs-REI.... Zero -o-Da.PHI
Hopefully you only need 1 jug... I heard Nutrien has it...??
****** Q&A.... Can I Do... 🙄** *Parka & *Blush2X & *ReTain & *Lo-Rate-"005" & *DiKaP All-Together in same Tank-Mix...???
This has been done with good Success.... by a few Guys.... Good Reports. No Bad Reports...
My only question is if it's time for ReTain, am I getting decent mileage out of my Parka...??? Some Guys have their Parka Program reeeaally Dialed-In....and they say they get very fun 'R.O.I.' by doin the additional Parka Applns.... and then the Blush Guys that use a lot of it...??? ...really use a lot of it. They have Photo-Finish-Proof of how well they have this thing 'Dialed-In'... Impressive.

But...
-They get Slow-Drying
-They do plenty of Water
-They dont do any other Adjuvant-Surfactant when they have Parka in their Tank
-They do a minimum of 100% Coverage...with minimal Drippage...
****** The "Harvest-Solar" Folks** are done with their Install here at Gooding.... One more County Inspector needs to take a peek...then Consumers Energy needs to "Hit-the-Switch"... and we should be Off & Runnin....

It has turned out like we were promised so far...
Now to see if it's gonna pay us back within the 7 Years we were told...???

So Far So Wonderful... 🙏👍❤️☐

* * * * * If Ya wanna come on over and Check-Out that "Solar-Array"????
....and maybe do some 'Target-Practice' at our Shooting-Range...???

Just give me a call...or Text...or EMail....616.437.0073
****** Yup....Those were the "Good-Ol-Days"....20-Plus-Years Back...**We could Borrow-Return-Swap-Trade-Purchase almost all the various Agri-Products with the "Competitors" ...the BNRs...?? ...from down-the-Street...???

But ...These Days..??? ...Now when every year we get at least 1 Report of Growers being threatened if the BNR-Rep finds any "Reister-Product" in their Chem-Shed.... threatened that the BNR Rep will not be coming back if the "Product" is still there tomorrow...??? Bull-Crap like that takes the enjoyment out of "Working-Together" on anything... But it's been working very well for us at RGSs.... 🙏

God Bless....
Locked & Loaded....
