Fruit Ridge Notes - Thursday - January 23 - 2020

Greetings from Fruit Ridge Avenue

All that SunShine yesterday should have lifted some Spirits !!! It surely helps my attitude !!

**** **Yes...** 🙄 Those "South West Michigan Horticultural Days" in Benton Harbor do indeed convene on the same day as our Feb-5th-RUP-Licensing-MSU-Training-MDA-Testing-Event at Fricanos Pizza--Comstock Park....North of G.R. 😞
....that Gig in Benton Harbor is 5th and 6th

**** **Coming Upin those Late-February "Reisters Winter Meetings & Expo" Events...**

We will be hearing much more about the "OMRI-Listed" Virus-Approach to controlling Codling Moth and Oriental Fruit Moth in Peaches--Apples--Pears--Plums--Prunes.... This is another strategy RGSs DeeTeam is researching to save our Grower-Faves \$ome \$erious\$ Money.

**** **Please Notice at "Reisters.Net"** the recently-new Note about the Option for You to request a Meeting with a specific Manufacturer-Tech-Rep and one of our RGSs CSRs.... along with a DeeTeam Member if you wish...

.... DeeTeam being==Deanna--Alicia--Matt--Nancy--Ron.... "Dee" is Deanna's Nick-Name...

**** **Sounds Like....**

....Waaay too much San Jose Scale damage in 2019... Current-Apple-Pack-Out-%%%s are being badly impacted. But this is not just in Apples. We recently heard about plenty of damage last July-August in Sweets and certain Plum Varieties.

We are investigating more Options to clean these up... without using any Crap-Ugly-Oil-Strategies... and of course Oil does not always work for SJS either....Oil is assuredly **not** a Sure-Fire-Answer...

Lots of Discussion about this... I do know we can get rid of SJS ... using a NoMess-LowCost Remedy...

Incidentally

the Sweets and Plums in our 10-Acre-Apple-Trials had no SJS...None... Zero SJScale on any Fruit in any of our Trial-Protocol-Blocks in 2019.
