Fruit Ridge Notes - Tuesday PM - May 19 - 2020 - 2nd Send..

Greetings Still Tuesday Some More Issues....

Still Extreem Cludy ...

~~~~~ I'm not sure how many Ya'll take the time to go to  
"**Reisters.Net**" occasionally...??? I really would like more of your  
Feed-Back about our WebSite....?? 🙏 ??

I see the DeeTeam has Posted there @ **Reisters.Net** the  
Business Hours for this UpComing Memorial Day Weekend.... ????

Is this Memorial Day being on the 25th like one of the Earliest  
Ever... 😞 ??? I think it is.... Its always the last Monday in May....

Looks like RGSs is Closed on Saturday & Monday .....

Must be Some DeeTeam Folks have some Week-End  
Plans... They have been Reeally Busy lately .... But They're staying very  
Caught-Up and Soooo Thankful for All the Orders !!!!

And..... They are really making it really easy for me to be *Hangn-  
Out* at the Home-Office-Gooding St.... 😊

### \*\*\*\* Comments..... Yes .... Our Good Friend Jeff Alicandro

....does always mention the Reeeaal possibility of Fruit-Finish - Russet  
problems when using Coppers passed HIG... He always mentions  
that...Evert-Time. He does not have any "Exceptions" ...He includes all  
Coppers. He has seen the blatantly obvious Solid-Sheet-Russet on some  
Fruit after using most Coppers... And.....Jeff has to be very cognizant of  
what the Label states...

Soooo..... What about all you Guys using your "**005**" Any-Time-  
All-the-Time-Whenever-You-Want-Wherever-You-Want-As-Much-As-  
You-Want...??? 😞 ??? 😞 ....Hmmmmm.... Walk Before You Run.... I  
really love the numerous Reports from so many of you that have really  
watched and learned how "**005**" does so much good for virtually no  
risk....

One Old Timer always told me... "You can Russet Fruit by spraying Water  
if the Day is wrong" ....????

But I dont blame Jeff for staying on rack with the Labeling....
