Fruit Ridge Notes - Monday - April 6 - 2020

Good Monday Morning ...

April 6th.....

-- in 1909 -- Bob Peary and Matt Henson established 'Camp Jesup' ... 5 Mile from the North Pole. First Ever.

-- in 1917 -- U.S. declares War on the crazy-low-life-War-Mongering-Germans after they sunk 5 U.S. Merchant Ships

Today--- WunderGround pulled the Rain out of Today's Forecast..... Now Lookn at Sunshine

The Next 10-Days-Starting today according to WunderGround.Com..... 6 of 10 Days = SunShine... Mid-DAQY-Thursday kinda Windy---20 mphMaybe some Rain Sunday-12th and Tues-14th. When look at WunderGround, "Partly Cloudy" means pretty good Sun "Mostly Cloudy" means less Sun... They're pretty close 55% of the time.... 😞

****** Another "Must-Do-This" Weapon-in-Your-Arsenal** Make sure you use the Maximum-Seasonal-Legal-Limit of the SooooSooo Cheap Imidacloprid 4F. There's lots of Formulations of this ...Lots for Michigan on Your Crop... This stuff really effectively helps against all the Aphids... STLm.... WALH... Apple MaggotSanJoseScale.... **But please notice a 'New-Verbiage-Addition'** to the Label... Ya gotta be careful around Bee's.... Dont apply Imidacloprids within 10 Days before Bloom...or when Bees are Foraging.... Gotta really respect this....cuz the BugHuggers are comin after this one hard.... They wanna take Imidacloprid away from us too.... Get rid of the Dandelions in the Orchard... We dont want anything attracting Bee's after bloom.... Check with DeeTeam at Office....Get the Legally-Correct Imidacloprid 4F for your Needs... Lots of these are way over-priced Deanna will have the best deal for you.

****** Hopefully We are All Being Watchful..... Listening** ...for any-all-Opportunities made available for Small-Business by the Fed-Agencies for Financial-Help with this Virus-Impact.... like Loans that don't need to be paid back... actually 'Grants'... but called Loans in case we dont meet specific Criteria....??? Some of these are a very good fit for some Folks.... Be sure to keep your ear to the Ground....

****** Have You Noticed on ""Reisters.Net"" WebSite** the Details of how we are handling this BatCrapCrazy Virus Nuisance...???
Yup--We are still Rollin.... Open Regular Hours.... We are, as You are
.... **Essential** We have suspended all scheduled Meetings..... Doing these OnLine.... like MSU is doing All their Meetings using a Internet Meeting-Web-Service == ""Zoom"" ...???

It's been 2 Weeks of this "'Shelter-in-Place'" Directive... We will get thru this disruption.... Our God is Omniscient & Omnipresent & Omnipotent... Nobody is gonna 'put-one-over' on our God.

Please... simply **Call-Ahead ... Office-616-887-9933....616-678-7708... or ...**

[EMail--Deanna@Reisters.Net...](mailto:Deanna@Reisters.net) [-Alicia@Reisters.Net...](mailto:Alicia@Reisters.Net) [-Nancy@Reisters.Net...](mailto:Nancy@Reisters.Net) [-Ron@Reisters.Net...](mailto:Ron@Reisters.Net)

---or Fax-616-678-5320 Or....

If you have a significant "**Text**-History-Dialogue" with Deanna or Alicia or Nancy...??? You could also try that ...???

We really are serious about this Issue.... Doggone nuisance But we can All feel very Blessed for how the "Net-Impact" it is having it really kinda minimal...for most...???

Some other Folks arent as fortunate.... and other Countries....???

Wow.... Awful

***** Discussion -- Yes....Thank You So.....**

.....Have you heard of Gaucho XT Flowable...?? ☹️

....Have you heard of Bayer Crop Science..?? ...Huge....

So... Have you also heard of *Imidacloprid and *Tebuconazole and *Metalaxyl???

Yup3 great Chemistries... and these are all together in one Jug sold for Seed-Treatment This is a good "Case-in-Point" example

There are dozens of examples of how big Manuftrs take 2 or more A.I.s and successfully get them together in the same Jug... and they work great.

But be careful...Walk before you run And Watch ...Some are just Soooo easy ... just common sense.... and \$aving you \$erious\$ per-acre-co\$t\$.... Always watch your Labels on Agrian.com...

***** From Our VitaZyme Pals....** a fairly New-One called BioSeed. We havent really made a big Hoopla about this one...???

I like itand it does really work based on Data from my Fave Researchers one being Alicandro But it kinda does the same Job-Description as our beloved Agrinos products...???

But Here's the thing ...It's Different it is not the same A.I.-Activity-Angle-of-Attack for the Microbial-Issue. And the big thing to me is that it is so affordable for Ya'll.

Some of you have read about ... or watched at the Neighbors.... or heard about at Meetings...???

Where some Guys have diligently worked some extensive-painful-ridiculous-nuisance-procedures doing all the 'Application-Methodology' required for some Far-Out-Microbial product, and got no results....except for the huge \$250 -\$450-per-Acre-Cost of that crap....???

You do this **BioSeed** and my BeLoved **Agrinos** Strategy in *Weed Control Apps...in *Fertigation...*Drip... *Drench ... some Agrinos *Foliars... Several Easy-On-Applns... No hassles Tank-Mixing with virtually everything getting into 3 - 4 - 5 different Applns.... Soooo Easy Soooo Cost-Effectivelike less than \$70-per-Acre-**Season**-Cost ... per **Season** !!!! All of it

***** Yup...Pulled the Trigger on the Solar** thing Cypherin indicates we will save over \$800-Month with this Harvest-Solar Co. Installation..... Lookn like a 6 yr-7 month Pay-Back.... We needed to be sure we could "Depreciate" this Expense in connection with the Income-Taxes-Calculations.... That is a very significant Factor-of-Input

In Prayer Voting Our Faith
