## Fruit Ridge Notes - Monday June 22 - 2020

Hope You All Enjoyed a Wonderful Fathers Day !!!!!

**A Quiet Monday Morning.... No Thunder Storms.... No Rain...**

So ....No More than a 45-Minute 18 mph-Breeze over the Weekend here west of Sparta...  
Lots of Sun..... We Really do desperately Need & Want-Some-Rain !!!!  
WunderGround... Just as Wrong as Anybody.... Now saying 75%-  
Chance-T-Storms later Today...Rain Tuesday Morning... Rain late  
Friday...T-Storms Sat-thru-Sunday Morning...Isolated-T-Storms Monday  
& Wedn-July 1.....and 3-4 Days-SunShine out of next 10....  
Prayin for Rain. 🙏 Some Folks at Worship Yesterday sayin their Lawns  
are turnin Brown.... 😞

\*\*\*\* Yeah 😏.... 😏.....Does anybody really ever get this  
Done... 😏???

...Being all-Done **Hand-Thinning** by the "**4th**"...???  
The Key-Focus has to be the Honeys... And Yup....  
...Some Guys do actually really "GittRDunn"... 🙌👍😎

\*\*\*\***ReHash... No...No 'Rally40WSP' on Blues....** I know  
...Kinda Weird...

But...Lots of great Lo-Cost-Hi-Efficacy-Disease-Control-  
Choices.... \*\*"**005**"... \*\*SuperPhites... \*\*AzoxyProp[Quilt-  
Excel]... \*\*Azoxy2SC[Abound]... \*\*Indar2F... \*\*OxiDate  
**5.0**... \*\*Regalia... \*\***SA**ver... \*\*Propiconazole[Tilt]...

\*\*\*\*\*Remember to Look at your Per-Acre-Cost...I always avoid  
those \$40--\$50--\$60--\$75--Acre--Choices.

Reminder--SuperPhites == K-Phite-7LP....Formula-**II-SW**... The **II-SW**  
has the SeaWeed & Zn and a "Nutritional"-Label....Making your Book-  
Keeping a bit easier...???. ...at least for some Folks...

\*\*\*\* **For Most of You.... Your 2nd Parka**-Appln was a Week-or-so-  
back...???.

You were shootn for 21-25 Days after your 1st App. And your **3rd** App is  
recommended for 21 - 25 Da. after that... Like maybe around the  
**4th**...???

If you're doin a Later Variety...like one of the last Varieties you harvest...You can Flex-Stretch those intervals to 30 Days. 21 -- 30 Days ... 🤝👍😎 Do 1 Ga.Parka-per-100-Ga.-Water....No Adjuvants....No Surfactants.....

Some Guys that have seriously watched how Parka works, are planning a 4th-Appln....21-25-Days after the 3rd... And .....You recall how AgriMek works sooo Very Well with Hi-Rates InSpray-90...??? If your timing for your **2nd** App-AgriMek comes around that same time as your **3rd**-Parka-Appln...???👍🤝😎 ....You dont need the InSpray-90....

**\*\*\*\* Hot Out... Really Need to Keep the Calcium**-Apps goin on most Hi-Dollar-Varieties....Especially Honeys... **\*\*\*\*MainStay-Ca-S.I..... \*\*\*\*RidgeCAL-BPC-Plus..... \*\*\*\*FoliCAL.....** All great choices.....

The main-determining-factor influencing your Calcium Choice should be "'Performance-vs-Price-Cost-per-Acre'" ...Ya know there are really some that dont accomplish much and cost "All-the-Money"... 😡😞

**Need a little Poke of "'N'" ...??? I really like the Liquid GreenFeed-27....**

**\*\*\*\* Friday--July 3rd-- A Week from this Friday....RGSS** Office--Fruit Ridge Ave...Will be Closed....

I'll keep ya posted as to who might be available for "'Emergencies"' ....??

**\*\*\*\* Spraying in the Heat.... How Hot...???** In this current Weather Pattern... I have talked with some Guys that dont go til 11p-MidNight.... Done by 9am.... Start up again at MidNight... Not Fun....But definitely the right strategy...

**\*\*\*\* If a Neighbor...??? Especially a Neighbor SW of Your Orchards...??? .....**has a worsening-**Fire-Blight-Issue**.... 😞 You need to be 3X-More-Protected than his Neighbor situated SW of him... 😞 Thats just the way it works....

**"005"** is by far the Real-Deal-Smart-Money-Choice... according to the Real-Deal-Experts-Researchers...Folks that have Really Looked & Watched this stuff... 🤝👍
